MR. RUARK, planning for our expansion

Mr. Boyer, our local Principals, School Board members, and contractors breaking ground for the new addition.

Continued Growth and Expansion

Like the children we have the privilege to educate, we at the primary level are experiencing growing pains. Since the 1973-74 school year, our enrollment has increased from 396 (K-3) to 552 at this writing January, 1978.

Growth is exciting, but sometimes frustrating when you haven't enough space to house the students in their prospective places which explains kindergarten and two classes of third year being at the Middle School

However, it is with much delight that I can say we have in progress an expansion program that will grant us seven class rooms and an expanded media center for the fall of 1978.

Congratulations and many thanks to our Superintendent, Mr. William F. Boyer, and the Minford Board of Education for securing this Federal Grant to construct the larger part of this addition. It has been their leadership and dedication that has brought Minford to its high quality of education.
