A stylized, white-outlined logo of the year '1982' is centered within a dark, rectangular inset. The numbers are interconnected in a modern, graphic style. The background of the entire cover is a dark, textured material with a complex, geometric pattern of overlapping, angular shapes that create a sense of depth and movement.

## *Farewell*

After 39 years of being an educator and administrator Mr. Rolf, our executive head, will retire in August of 1962.

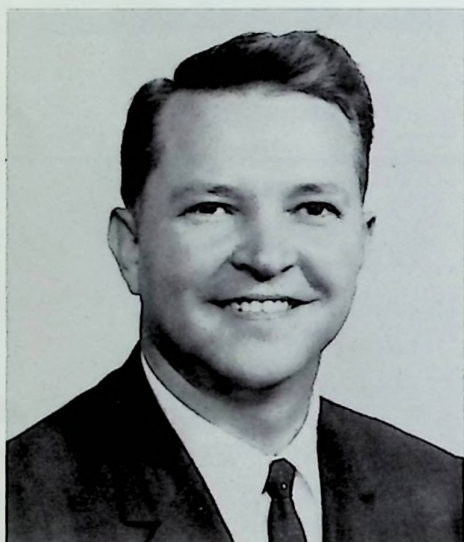

Mr. Rolf was one of the founders and is a past president of the Southern Ohio Conference. He became supervising principal of Washington district in 1939 and was named executive head when the position was established about five years ago. Mr. Rolf undoubtedly is proud of Washington system's scholastic rating.

We know that the thousands of students, that have in one manner or another been under the jurisdiction and guidance of Mr. Rolf, will be better for it.

On behalf of all of those students, we express our deepest congratulations for a job "Well Done."

MR. FRANK B. ROLF

MR. LEON DAVIS

Mr. Leon Davis, our principal for the last five years, has moved to the Portsmouth School District as Staff Supervisor.

We wish him every success for the future and express our heartfelt appreciation for his guidance and supervision.

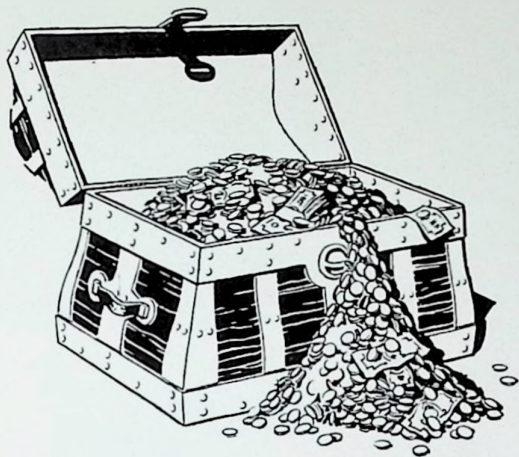

Good Luck, Mr. Davis.

---

After 16 years as head cook at West High, Mrs. Emma Goodman has retired. Affectionately called "Mom" by many, she will be remembered for her cheerful smile and the many enjoyable meals served to thousands of students.

Good luck and God Bless you, Mom.

## How Much Is \$165,000,000?

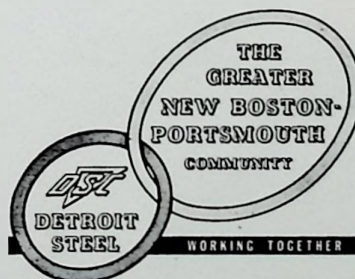

When the current expansion and modernization program is completed at its Portsmouth Division, Detroit Steel Corporation will have spent over \$165,000,000 in its determination to make this southern Ohio steel mill one of the finest, best equipped, most competitive such plants in the nation.

That's a lot of money.

For example, had a man who was living when Christ was born, continued to live until today, and had he spent \$225 every single day during all those long years, he would still not have spent that much money.

One hundred and sixty-five million dollars . . . the savings of thousands of ordinary people who, believing in the American Way, have become part owners in American Industry . . . plus the "plowed back" earnings of the company . . . all that money, within the next few years, will have been invested in the future of the Greater New Boston - Portsmouth Area to provide jobs and security for its citizens.
