**THE 1966 TARTAN**

An old proverb says that a picture is worth as much as a thousand words, and so we hope that this 1966 annual will be one of our most highly prized books as long as we live.

When time and distance and other interests and no end of hard work have largely washed away the world in which we now live, this yearbook will be the best record of those wonderful and irretrievable years of the mid sixties.

Therefore let us take good care of these priceless pages.

## *Foreword*

## *Dedication*

We dedicate this edition of the Tartan to the physical education instructors at Portsmouth East. Mrs. Ramona Horton joined the faculty of East High in 1960. She teaches biology in addition to physical education. Mr. Lou Carson, who in addition to physical education teaches civics, became a member of the staff at East in 1959. Both of these teachers are well liked and respected by all the students as well as their fellow teachers.

### CROSSING THE BAR

Sunset and evening star,  
And one clear call for me.  
And may there be no moaning of the  
bar,  
When I put out to sea.

But such a tide as moving seems asleep,  
Too full for sound and foam,  
When that which drew from out the  
boundless deep  
Turns again home.

Twilight and evening ball,  
And after that the dark!  
And may there be no sadness of  
farewell,  
When I embark;

For tho' from out our bourne of  
Time and Place  
The flood may bear me far,  
I hope to see my Pilot face to face  
When I have crossed the bar.

*Progress  
Is A  
"Two-Way  
Street"*

THE GROWTH of any company depends, to a large degree, upon the community in which it is located and upon the attitude of the citizens of that community. For it is from that community and from those citizens that a company must gain strength, build its work force and develop its future. Thus, the more understanding the community is toward its industry and its problems, the more cooperative and loyal the citizens who comprise its work force, the better the company's chances for continued growth and expansion.

ON THE OTHER HAND, the growth of any community and the development of a bright future for its citizens depend equally as much upon the day-in-day-out successful, profitable operation of its industry. For from that industry stem jobs and paychecks today, employment opportunities for tomorrow, local purchases, community service contributions and vitally essential tax dollars.

OBVIOUSLY, THEN, the growth of a community and the growth of industries within that community are inseparably bound together, one dependent upon the other. And progress becomes a "two-way street".

LOOKING BACK, Detroit Steel is proud of the contributions it has made to the betterment of the Greater Portsmouth community and to the benefit of the citizens as it has pursued an unbroken 15-year course of growth and expansion . . . over \$150,000,000 invested to provide one of the most modern, competitive steel mills in the U. S. . . . and an annual employee payroll that is currently running around \$24,000,000.
