# River Days

## Miss Erica Herrforth

Wow, River Days-what an experience! When I was voted Miss East, I knew that it wouldn't be easy and I knew it would be very time consuming, but I didn't know how many fun memories I would make being a River Days girl. The girls from the other schools were great. We went out to eat, to the movies, and made every moment a moment to remember. My favorite memory is when all the girls went to the movies together to see "Charlie Saint Cloud," and I looked down the row of chairs and every single one of us were in tears. We all laughed at each other. Through the community service projects, fashion shows, and fundraisers there was never a time when we didn't have a smile on our faces. During the pageant we were all nervous but we had a smile, and, as we all held hands on stage, I knew that every one of us would remember the last moment we would be on stage together. Knowing that it was over made me sad, I will miss all the girls and I will keep the experience it has given me. For the young girls in the lower grades who are thinking about being Miss East, remember that you do not have to be perfect. Be yourself because, there is no other person just like you. Finally, I would like to thank my parents Stacie and Andrew Cartee, my pageant mom Foresta Shope, all the teachers and staff from East High School and Sciotoville Elementary Academy, and all of those who donated and believed in me throughout my River Days Experience.

Miss East Erica Herrforth

His name is Lucky. He is a rescue horse who is lucky to be alive. Lucky was found abandoned in a pasture. He had been neglected and abused. More than anything he needed help and with one phone call help is what exactly what he received. Wild horse rescue and rehabilitation was his saving grace providing him with the love and care he most desperately needed. Lucky's story is not uncommon repeated countless times across the nation. A life like one Lucky lived is no life at all and no living being should have to endure such horrible treatment. It is because of stories like this that I have become so passionate about my platform of raising awareness of abandoned and abused horses. All my life I have worked with, taken care of, and even helped rehabilitate horses. I have even helped horses aid in the rehabilitation of children with disabilities. Horses can provide therapy for any soul. They can make you feel free and often you will find that emotional well-being is as important as physical well-being. For a soldier just coming home from war equine therapy can provide a sense of tranquility long lost from years spent in fear and danger. For the seeing impaired a guide pony can see for them. Services like these are often overlooked. Horses can help in ways many would never think possible. In order to help, you first need to know the facts. According to Time Magazine, there are over one hundred thousand horses abandoned or abused each year. How much would that number diminish if more people realized that horses face just as many problems as other domesticated animals. Horses are my passion. Learn. Act. Become involved.
