Dedication

We the Graduating Class of 1969 dedicate this book to one who deserves it. Mr. Stone has worked with the yearbook staff for two long and hard years of getting the staff together, trying to meet deadlines, taking the right pictures, collecting advertisement money, and keeping his nervous system together. Because of this and many other reasons we the Graduating Class of 1969 are honored to salute and stand up for you Mr. Stone, and thank you very much for all your help.

It's going to be close!

Wow! This must be a fly ball!

Could he be trying for a double play?

Johnny throws for a strike.

Now which way is second base?

Get off my back Ump!

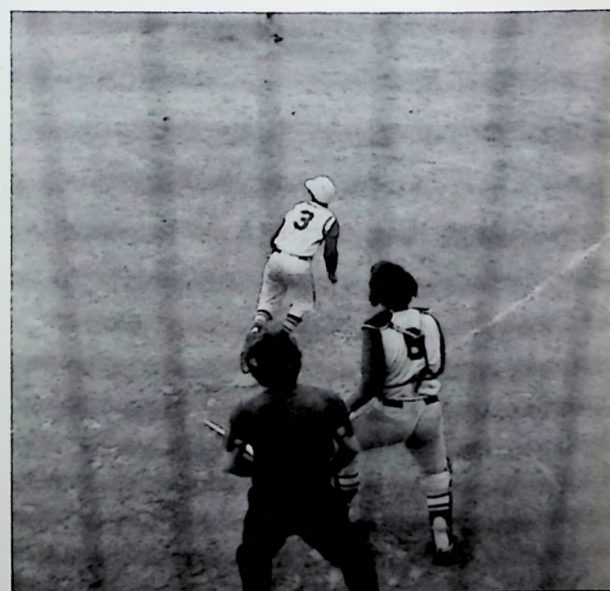

You call that a straight line?

Now where did that ball go?

Hey! Over here's home plate!

*Progress
Is A
"Two-Way
Street"*

THE GROWTH of any company depends, to a large degree, upon the community in which it is located and upon the attitude of the citizens of that community. For it is from that community and from those citizens that a company must gain strength, build its work force and develop its future. Thus, the more understanding the community is toward its industry and its problems, the more cooperative and loyal the citizens who comprise its work force, the better the company's chances for continued growth and expansion.

ON THE OTHER HAND, the growth of any community and the development of a bright future for its citizens depend equally as much upon the day-in-day-out successful, profitable operation of its industry. For from that industry stem jobs and paychecks today, employment opportunities for tomorrow, local purchases, community service contributions and vitally essential tax dollars.

OBVIOUSLY, THEN, the growth of a community and the growth of industries within that community are inseparably bound together, one dependent upon the other. And progress becomes a "two-way street".

LOOKING BACK, Detroit Steel is proud of the contributions it has made to the betterment of the Greater Portsmouth community and to the benefit of the citizens as it has pursued an unbroken 18-year course of growth and expansion . . . over \$165,000,000 invested to provide one of the most modern, competitive steel mills in the U. S. . . and an annual employee payroll that is currently running around \$24,000,000.
