INTRODUCTION

The volume herewith presented constitutes R. L. Polk & Co.'s Portsmouth City Directory for 1928, being the eleventh consecutive issue. The publishers have endeavored to produce a volume combining all that is vital in the civic, social and industrial life and activity of the city.

A careful enumeration of the citizens and business interests of the city and a compilation of the result by trained employes assures as correct and reliable a work of its character as is possible to be produced. The publishers have an organization solely devoted to the publication of directories, and their methods and resources are unrivaled. Their imprint on the hundreds of directories published for cities throughout the country attests the quality and reliability of their product.

POPULATION

There are 24,154 individual names in this directory. Using the very conservative multiple of $2\frac{1}{2}$, to allow for the women and children of the city whose names are not a part of the recorded canvass, the publishers estimate the population of Greater Portsmouth to be

60,385

The several essential departments of the Directory are set forth in the order following:

THE MISCELLANEOUS DEPARTMENT, pages 11 to 35, include data concerning city and county officials, public and private institutions, banks, cemeteries, churches, hospitals and homes, libraries, schools, societies, etc.

THE BUYER'S GUIDE, covering pages 37 to 77, and printed on tinted paper, contains display advertisements of the prominent and progressive business men and concerns of Portsmouth; they are arranged alphabetically by headings adapted to the nature of the industry followed. This section is a new feature in this Directory and will prove of value to those making use of the information it contains.

THE STREET GUIDE AND DIRECTORY OF HOUSEHOLDERS extends from page 835 to 935.

THE ALPHABETICAL LIST OF NAMES OF CITIZENS, business firms and corporations is embraced in pages 79 to 834.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 939 to 1049, and shows the various manufacturing, mercantile and professional occupations, compiled under headings appropriate to the class of industry pursued. The Directory is the common intermediary between buyer and seller.

P

INTERESTING FACTORS IN AND ABOUT PORTSMOUTH WHICH SHOULD BE KNOWN

Portsmouth, Ohio, the seat of Scioto county, located at the junction of the Scioto and Ohio Rivers, has an area of 13.50 square miles with the Norfolk and Western, Chesapeake and Ohio, and Baltimore and Ohio railways serving its peoples and industries, connecting all the larger cities of the east and west with trunk line facilities and adequate industrial sidings and prompt switching for commerce and industry. Freight and passenger service on the Ohio river during every season of the year, between Pittsburgh and Cincinnati, likewise to Charleston via the Kanawha. This waterway connection makes this city a port of entry extending commerce to the sea via the gulf. These transported 310,200 tons of freight in and 120,000 tons out of the city during the past year. Both railways and river running into the coal fields bring to the city a fuel supply at the most reasonable cost. These combined moved more than 2,540,479 tons of commodity freight into and received 1,790,326 tons for the markets of the world from this city during 1927. Bus and trucking service everywhere. A million dollar traffic bridge connects Ohio and Kentucky at this point.

Portsmouth is one of the three terminals now under consideration for the Ohio-Lake Erie Barge Canal. Situated but 400 miles from Chicago, that great centrally located city, interior, 600 miles from New York, the world's financial center, 400 miles from St. Louis, the gateway to the West, and an equal distance from the National Capital. Portsmouth is the largest city between the capital of this State and Louisville, north and south, likewise, the largest city from Parkersburg on the east, to Cincinnati, on the West.

The number of people within the corporate limits, at this time, is 60,385, gaining at the rate of 4,000 per annum, 3% of which are colored and of an unusually high standard, and 2% foreign born. Scioto County with a population in excess of 75,000 has an industrial population of 55,000.

Portsmouth's 46½ miles of paved streets, with 69½ miles of paved highways in the county, completely cover 95% of the City's streets with brick paving and all of the main arteries leading thereto. The City has a Boulevard Lighting System over its principal thoroughfares. Has twelve miles of electric car lines within the City limits and twenty-eight miles of interurban service, connecting our community with the outside world, and giving adequate service from this industrial and mercantile section to the commercial centers of the country.

The City has in excess of 110 miles of sewers; 100 miles of water mains in which there is a pressure of seventy pounds maintained; has a modern municipal water works, with a daily capacity of eight million gallons, connected with the modern purification plant, furnishes an adequate supply of the purest water for industrial and domestic purposes, with an annual income ranging from \$5.00 in homes to \$5,400.00 from industry. Well organized Fire Departments protect home and factory. Electric current for residents and commercial lighting and power, range from 1½ to 6, 7½ to 8 cents per kilowatt. We have natural gas, with the usual discount, at 45 cents per thousand feet. Power plants linking in with the country's largest electric units.

~~3018~~

93-6601

Portsmouth lies in the commercial center of the famous Scioto Valley corn belt, surrounded by some of the best producing grain and stock raising lands to be found anywhere. Tobacco in large quantities is produced adjacent to this County. Scioto County has in excess of 25,000 acres planted to corn annually, which usually yield fifty bushels per acre. These rural activities are promoted by Agricultural Societies and Farm Bureaus, with their County agencies, the most vigilant of any in the central west.

Portsmouth has a splendid school system, 7097 students, employing 233 teachers, expending 45% of its income, or \$450,000.00 annually for buildings and employes necessary to education, with an \$800,000.00 High School and fourteen grade schools, with commercial courses and a Business College. A Public Library with 40,000 volumes; 42 churches and an enrollment of 35,000 members. There are three parks and a wonderful Country Club with an adequate golf course. There are seven luncheon Club in the city, with the usual number of secret orders.

There are two daily papers, the Morning Sun and the Evening Times. These are factors in our community growth, to which we point with pride. There are five banks, National and State, with aggregate resources of nine million dollars; six building and loans, with resources of nine million dollars; there are thirteen retail dry goods stores; 14 furniture stores, 160 retail groceries, 10 hardware stores, 19 meat markets, 5 milk dealers, 20 plumbing establishments and 20 drug stores. The wholesale houses handle every commodity necessary to community life; these abound here in quite a number, and include dry goods, groceries, hardware, hats and caps, soft drinks, shoes and candies.

Portsmouth and vicinity abounds in natural resources, some of which are sand, gravel, fire clay, brick, shale and sandstone, and a limited amount of coal. The Canadian Parliament House and many other important buildings throughout the country have been builded from Portsmouth sandstone; its fire and paving brick line the furnaces of industrial plants and surface the streets and roads of the nation.

Portsmouth has its charitable and welfare activities, organized through a Community Chest, which provided for financing these activities. There are three hospitals with modern facilities; two large housing corporations for the purpose of providing homes for employes necessary to our growing industries. There are twelve picture houses and two theatres in daily use. Scioto County has 11,121 autos and trucks registered.

Portsmouth is protected from flood conditions in the Ohio and Scioto rivers by an adequate, concrete reinforced flood wall. This protection keeps out a 62 foot stage of water and has proved to be a factor of safety to our community. There are 114 diversified industries in this City, among which are the Wheeling Steel Corporation, Portsmouth Plant, employing 5000 people; the Rod and Wire Mill, employing 1000 persons; the Selby, the Irving Drew, the Excelsior and the J. F. Davis Shoe Companies, employing 5000 people. The Portsmouth, the Ohio, the Sterling, the Stove and Range Companies engage about 350 people. The By-Product Company, reducing coal to coke, produce several hundred chemicals and similar commodities, employ 500 people. The Peebles, the Carlyle, the Harbison-Walker Companies employ 500 in producing paving, building and fire brick. The Railway Terminals employ 3000. The Breece and the Wait Furniture Companies, the Mitchell Knitting Works, Vulcan Last Company, boiler plants, box factories, engine works, lumber mills, sand and gravel plants, stone mills, ice plants, flour mills and minor industries employ a greater number;

a total in excess of 18,000 persons are employed here, who receive annually, \$21,000,000.00 for their service in production.

The longitude of the City is 83 degrees, the latitude 39 degrees. The annual rainfall about 44 inches; the earliest frost about November 1st, and the latest around April 1st. The average temperature 87 degrees. The City has the federal form of government, chartered under Ohio's incorporation laws in 1803. Expenditures for public purposes are equal to one million dollars annually, the revenue for which is obtained from a tax valuation of \$60,000,000.00, about 60% of the actual property value, based on a rate of 2½%; and assessments for streets and sewer.

Recently, the Telephone Companies have unified, giving local and long distance service to all parts over the lines of one company. Endeavoring for Air Mail Service. Portsmouth has one of the finest Airports in the Middle West. "The Raven Rock Air Port" serving this vicinity with local and long distance air transportation.

We have attempted to enumerate but a few of the factors that make up this community, and to which we invite attention of both capital and labor. The possibilities of this territory, located as we are in this favored section of the Ohio Valley, warrants those seeking locations for new industries, visiting the City and measuring its prospects.

The Chamber of Commerce promotes the general welfare of the community and operates for the benefit of the individual and those associated together for mutual progress, its membership being composed of representative men and women, makes the interchange of ideas practical and adaptable to good practice. It is the source of information regarding the advantages of Portsmouth and vicinity, comparable to factors the world over.

Disseminating this information and making the best use of it, we attract capital from the outside and build the city's population both bigger and better. The Chamber provides a meeting place for the discussion of questions of public interest, which leads on to greater development and becomes the collective voice of all community problems. In concrete, we refer to Portsmouth as follows:

P. L. POLK & CO.,
Compilers and Publishers.

PORTSMOUTH, OHIO

A small hamlet in the eighties, on the north bank of the Ohio, where the Scioto joins the two rivers. Upon the broad bosom of these, cargoes of passengers and freight find their way, via the Ohio, to the sea, has advanced to a city of most a half-hundred thousand within this brief time.

This favored section of the Ohio-Scioto Valleys has been peopled with those of industrial inclination. These have wrought from the soil, the forest and mine, its crops, its timber and mineral resources. Capital and labor co-operation, employes have converted these into articles of human use, which bring to this community a fair proportion of the nation's abounding wealth.

The growth of industry, its iron, its steel, its shoes, its brick, its lumber, its furniture, their diversity of allied interests have created its banks and agencies necessary to the acquirements of homes for employes. These attract the men of trade and profession, establish the church, the school, the home and additional mercantile interests.

Together we have grown in both home and industry until we see very clearly, the possibilities of the future, when no longer can the measure of our growth be recorded by the thousand per year, necessarily many thousands instead, annually.

Portsmouth, not unlike other cities, invites those that are giving study to the location of industry and a place in which to live. We have that which is essential to each in both the accessibility of labor and the factors admirable to family life. It is best to see the possibilities here before locating elsewhere. A letter to the Chamber of Commerce will bring additional information.

THE CHAMBER OF COMMERCE.

V. A. TALBOTT, Manager.

Portsmouth, Ohio,
Dec. 5, 1927.

Stability AND Permanency

Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Chamber of Commerce

PORTSMOUTH, OHIO

The industrial map of the United States is changing. The Ohio Group of States has the most attractive coloring.

Portsmouth is making itself one of the most outstanding points in this region through the activity of its Chamber of Commerce. This organization is composed of men who believe in their town and country. They look ahead when their town will be bigger, wealthier, more progressive, better equipped to solve the problems of a fast growing City.

Our business men have long since been able to see and solve the problems which underlie really the whole spirit of our lives.

As in the past, the Chamber of Commerce will continue to promote the general welfare of Portsmouth and Scioto County.

**THE PORTSMOUTH CHAMBER
OF COMMERCE,**

By V. A. Talbott, Manager.

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

☞ It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

☞ It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

☞ The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

☞ Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.
