**CHAMBER OF COMMERCE**

# Portsmouth, Ohio, Chamber of Commerce

The city's parent civic activity, a modern business institution where helpful information on all subjects is available to all without charge. This organization has for its membership 1500 of Portsmouth's leading citizens who are embraced in an effort to build a bigger and better city.

This organization affiliated with the other 1400 Chambers of Commerce embracing 750,000 members in every worth-while section of America insure a nourishment out of which growth and prestige follow.

If Horace Greeley were living today, his advice to the young people of Portsmouth would undoubtedly be "Stay in Portsmouth". The advice of his time was to go where he foresaw rapid growth which bring with it remarkable opportunities.

But as time changes, conditions also change, and many cities of the older conservative East and Central West have taken on new life in recent years which has brought with it a greater measure of opportunity.

Many of these opportunities have been brought about by changing economic conditions; by the shifting of centers of population and industry; the changed methods and means of both transportation and communication; the availability of raw materials and the supply of skilled labor; to which we may add countless other considerations which make up the complex of modern civilization which is enjoyed in this land.

Definite results in the upbuilding of Portsmouth and the advancement of its industrial and commercial interests have been accomplished year by year through the Chamber's vigilance in questions affecting community life. To these problems we enlist the best thought and co-operation of citizens because, this is necessary to both progress and safety.
