# Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

## INTRODUCTION and GENERAL INDEX

R. L. POLK & CO., publishers of more than 850 city, county, state and national Directories, present to subscribers and the general public, this, the 1959 edition of the Portsmouth City Directory, which also includes New Boston.

Confidence in the growth of Portsmouth's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Portsmouth to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Portsmouth Directory will fulfill its mission as a source of authentic information pertaining to the community.

### Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Portsmouth, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Portsmouth and New Boston, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical

order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, is the fourth major department, printed on blue paper.

### **Community Publicity**

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Portsmouth and New Boston.

### **The Portsmouth Directory Library**

Through the courtesy of the publishers of the Portsmouth City Directory, a Directory Library is maintained in the offices of the Portsmouth Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

### History

Portsmouth's history goes back to within fifty years of the journey by French explorers down the Scioto River into the Ohio Valley, from the north, in 1749. It was at the site of this city that the French surrendered the Ohio Valley to the English in 1763. The Early history of Scioto County is very closely associated with Indian life, and at the junction of the Scioto and Ohio rivers was located a Shawnee village. The site of the famous "Tremper Mound" is three miles from the city. A great collection of Indian relics have been taken from this mound. Many can be seen at the Portsmouth Public Library.

It was in 1799 that Major Belli laid out the town plat of Alexandria, which was directly across the Scioto River from the present site of Portsmouth. Portsmouth was founded in 1803 by Henry Massie, and all the citizens of Alexandria removed to the higher ground because of flood waters. The name Portsmouth originates, tradition says, from Portsmouth, New Hampshire.

The city flourished, and in 1820 the population was 500. In 1810 came the steamboat, and in 1812, the Ohio Canal, extending from Cleveland to Portsmouth was completed. Early growth centered around river and canal transportation.

Portsmouth always has been a manufacturing center. natural resources such as iron ore, coal, limestone, clay and shale, predestined Portsmouth and its environs to take a lead in the manufacture of iron and steel and many kinds of clay products.

Foreground: Norfolk & Western Yards and Shops.  
Background: Detroit Steel Corp. Plant.

Railroads came to Portsmouth in 1853, and the population had then grown to more than 4,000. The shoe industry started in Portsmouth in 1869, and has thrived until today it forms one of the city's major industries.

Products manufactured in Portsmouth are: Steel, steel products, shoes, shoe laces, paper boxes, wood lasts, wood heels, castings, fire brick, silica brick, displays, brake drums, chemicals and reinforced plastics.

### Industry

Because of its geographical location, its topography and its transportation facilities, Portsmouth is an ideal center for industry.

There are many diversified manufacturing plants in the city, among which are:

The Detroit Steel Corp., manufacturing hot and cold rolled strip and sheets, wire and wire products, coke, and chemical by-products.

The Harbison-Walker Refractories Co. and the General Refractories Co., producing millions of high-grade fire bricks annually.

The Williams Mfg. Co.

The Vulcan Corp. This concern is a leading manufacturer of shoe lasts, wood heels and plastic heels.

The Dayton-Portsmouth Steel Foundry Co.

Doerr & Associates, manufacturing displays.

The T. M. Patterson Paper Box Co., manufacturing paper boxes, mainly for the shoe industry.

Pyrrole Chemical Corporation, manufacturing insecticides, cleaning chemicals, etc.

The Alsynite Co. of America, producing reinforced plastics.

Ohio Stove Co. and Portsmouth Casting Co., manufacture gray-iron castings.

Century Last Company, manufacturing shoe lasts.

Three railroads: The Baltimore & Ohio, the Norfolk & Western and the Chesapeake & Ohio, employing 2,350.

Mitchellace, Inc., one of the largest high-grade shoe lace manufacturers in the country.

Atomic Energy Plant—The Portsmouth Area Project of the Atomic Energy Commission is located 20 miles north of Portsmouth on U. S. Route 23. This huge facility, to produce Uranium 235 by the gaseous diffusion process, was started in August 1952 and was completed in 1955, at a cost of \$900,000,000. Two new power plants were constructed to supply the atomic plant's annual requirement of 1,800,000 kilowatts—25 per cent more electric energy than is consumed by the entire City of New York.

### Shawnee State Forest and Roosevelt Game Preserve ("Ohio's Little Smokies")

Within a few miles of Portsmouth are located Ohio's greatest State-owned forest, the Shawnee State Forest and the Roosevelt Game Preserve. This area comprises about 54,000 acres of picturesque hill land. This region, once the hunting ground of the Shawnee Indians, is unlike any other portion of Ohio. Here is mile after mile of forest, broken only by an occasional patch or strip of cultivated soil in the narrow valleys.

This great forest area was purchased primarily for the purpose of producing and conserving timber, protecting the watershed and the conservation of wild life. The traveler will notice that the forest is comprised of a mixture of oak, hickory, yellow-poplar, and short-leaf and pitch pine.

An extensive system of roads has opened the entire forest area for recreational use, and it is now possible to drive over 100 miles of good gravel roads to the deep recesses of the forest and enjoy beauty not hitherto known.

Public use of the forest is increasing constantly and the recreational facilities are being continually improved. Picnic areas and camp sites are being developed. Picnic Point, one of the most popular spots, give the visitor a view southeastward across the broad valley of the Ohio River toward Portsmouth. Several reservoirs have been constructed, the most used of which is Lake Roosevelt, located on Route 125. Several years ago the Department of Conservation released many deer, and they have become well established. Hikers and automobile travelers often enjoy the rare sight of deer grazing in the valleys. The Portsmouth Chamber of Commerce invites you to avail yourself of the privilege of a hike or drive through the forests. All that is asked in return is to be careful with fire. . . . "KEEP THE FOREST GREEN."

# DIRECTORY SYMBOLS AND DESIGNATIONS

The diagram illustrates various symbols and designations used in a city directory. It features two overlapping sections: a 'HOUSEHOLDERS SECTION' on the left and an 'ALPHABETICAL SECTION' on the right. A legend on the right side explains the symbols: 'r' for Resident, 'h' for Householder, a bell for Telephone Subscriber, a circle with a 'U' for Home Owner, a circle with a 'W' for Wife's Name, a circle with an 'O' for Occupation, and a circle with an 'E' for Employer. The Householders section lists addresses on Oakwood Pl and Old Mill Lane, with symbols like 'C4', 'h', 'U', and 'W'. The Alphabetical section lists names like Lincoln, Dykas, Dyke, Harry, Saml Jr, Wm, Hamson, and John, with symbols like 'r', 'h', 'W', 'O', and 'E'.

**I**N ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

**KNOW YOUR DIRECTORY SYMBOLS**

# CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.
