McDermott High School

## *Dedication*

It is in deepest gratitude that we dedicate this yearbook to Mr. Wilson, who has assisted us in obtaining our educational goals. He is more than a teacher at McDermott High School; he is a symbol of all that is good in education. It is ancient wisdom that "as a man thinketh in his heart, so is he." It is new wisdom, perhaps, that as a man thinketh about himself, in his heart, so is he. And what he thinks about himself is inextricably tied up with his past and present experiences.

# *A Message to This Year's Graduates*

Detroit Steel Corporation heartily congratulates you. You have moved another step forward on your way to becoming useful citizens in the community.

Many rewarding opportunities await you after graduation in this nation of ours whose progress is rooted in its freedom. American industry is an outgrowth of these freedoms.

A good example is the steel industry. During the past one hundred years Steel has played a major part in lifting the standard of living in our country. The industry has expanded continuously. It is now on the threshold of further expansion on a gigantic scale.

This means new jobs . . . more and better jobs with a future. America and Steel are growing together. Have you considered Steel as a career?

We urge you to pursue all opportunities for continued study and self-improvement. Only by increasing the breadth of your knowledge can you hope to keep abreast of our ever expanding technology in a technical world. More than ever it can be said for the future that "knowledge is power."
