This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1947 edition of the Portsmouth City Directory, which also includes Eden Park, New Boston, North Moreland and Sciotoville.

Confidence in the growth of Portsmouth's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Portsmouth to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Portsmouth Directory will fulfill its mission as a source of authentic information pertaining to the community.

Six Major Departments

The six major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 12 to 19, on white paper, presents lists of city, county, state and federal officials; post office Directory; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 349, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Portsmouth and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 353 to 444. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, begins opposite page 444.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 36, on goldenrod paper, contains the advertisements of leading manufacturing, business and

professional interests of Portsmouth and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Portsmouth, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 481 to 524, on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Portsmouth and vicinity.

The Portsmouth Directory Library

Through the courtesy of the publishers of the Portsmouth City Directory, a Directory Library is maintained in the offices of the Portsmouth Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,
Publishers.

History

Portsmouth's history goes back to within fifty years of the journey by French explorers down the Scioto River into

the Ohio Valley, from the north, in 1749. It was at the site of this city that the French surrendered the Ohio Valley to the English in 1763. The early history of Scioto County is very closely associated with Indian life, and at the junction of the Scioto and Ohio rivers was located a Shawnee village. The site of the famous "Tremper Mound" is three miles from the city. A great collection of Indian relics have been taken from this mound. Many can be seen at the Portsmouth Public Library.

It was in 1799 that Major Belli laid out the town plat of Alexandria, which was directly across the Scioto River from the present site of Portsmouth. Portsmouth was founded in 1803 by Henry Massie, and all the citizens of Alexandria removed to the higher ground because of flood waters. The name Portsmouth originates, tradition says, from Portsmouth, New Hampshire.

The city flourished, and in 1820 the population was 500. In 1810 came the steamboat, and in 1812, the Ohio Canal, extending from Cleveland to Portsmouth, was completed. Early growth centered around river and canal transportation.

Portsmouth always has been a manufacturing center. Natural resources, such as iron ore, coal, limestone, clay and shale, predestined Portsmouth and its environs to take a lead in the manufacture of iron and steel and many kinds of clay products.

Railroads came to Portsmouth in 1853, and the population had then grown to more than 4,000. The shoe industry started in Portsmouth in 1869, and has thrived until today it forms one of the city's major industries.

Products manufactured in Portsmouth are: Steel, steel products, shoes, shoe laces, paper boxes, wood lasts, wood heels, stoves, castings, fire brick, silica brick, and cast-iron soil pipe.

Industry

Because of its geographical location, its topography and its transportation facilities, Portsmouth is an ideal center for industry.

There are many diversified manufacturing plants in the city, among which are:

The Portsmouth Steel Corp., manufacturing wire, rods, tie-plates, nails, drums, range boilers and tanks.

The Harbison-Walker Refractories Co. and the General Refractories Co., producing millions of high-grade bricks annually.

The Williams Mfg. Co., the Selby Shoe Co. and the Scioto Mfg. Co.

The Vulcan Corp. This concern is a leading manufacturer of shoe lasts and wood heels.

The T. M. Patterson Paper Box Co., manufacturing paper boxes, mainly for the shoe industry.

Three railroads: The Baltimore & Ohio, the Norfolk & Western and the Chesapeake & Ohio, employing 2,500.

Mitchellace, Inc., one of the largest high-grade shoe lace manufacturers in the country.

The Ohio Stove Co., producing 30,000 gas and coal stoves per annum.

An Airplane View of the Upper Bend of the Ohio River at Portsmouth. The Wall Has Protected This Residential Section from Flood.

Shawnee State Forest and Roosevelt Game Preserve

(“Ohio's Little Smokies”)

Within a few miles of Portsmouth are located Ohio's greatest State-owned forests, the Shawnee State Forest and the Roosevelt Game Preserve. This area comprises about 54,000 acres of picturesque hill land. This region once the hunting ground of the Shawnee Indians, is unlike any other portion of Ohio. Here is mile after mile of forest, broken only by an occasional patch or strip of cultivated soil in the narrow valleys.

This great forest area was purchased primarily for the purpose of producing and conserving timber, protecting the watershed and the conservation of wild life. The traveler will notice that the forest is comprised of a mixture of oak, hickory, yellow poplar, and short-leaf and pitch pine.

An extensive system of roads has opened the entire forest area for recreational use, and it is now possible to drive over 100 miles of good gravel roads to the deep recesses of the forest and enjoy beauty not hitherto known.

Public use of the forest is increasing constantly and the recreational facilities are being continually improved. Picnic areas and camp sites are being developed. Picnic Point, one of the most popular spots, gives the visitor a view south-eastward across the broad valley of the Ohio River toward Portsmouth. Several reservoirs have been constructed, the most used of which is Lake Roosevelt, located on Route 125. Several years ago the Department of Conservation released many deer, and they have become well established. Hikers and automobile travelers often enjoy the rare sight of deer grazing in the valleys. The Portsmouth Chamber of Commerce invites you to avail yourself of the privilege of a hike or drive through the forests. All that is asked in return is to be careful with fire . . . “KEEP THE FOREST GREEN.”

The Services of R. L. Polk & Co.

DIRECT MAIL ADVERTISING FOR THE COUNTRY'S LEADING INDUSTRIES

• Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's greatest industries are Polk's long-time clients. Polk's direct mail advertising service is complete . . . consultation, research, testing, creating, printing, producing, and distributing to *selected prospects*. A live organization of experienced business men who know the principles of selling. Production plants are geared to handle better than two million mailings daily.

The direct mail advertising services of R. L. Polk & Co. are available to American business, dedicated to helping them produce the increased sales volume necessary to our modern economy.

AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

• Since 1922 Polk has been statistician for the Automobile Industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model is the only annual inventory of the country's automotive equipment. Polk's new passenger car and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory.

The first business census of the U. S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town in the U. S.

These statistical services are available to American business to enable them to plan intelligently their production, distribution and sales.

SURVEYS AND CONSUMER RESEARCH

• Polk's facilities are the largest in the country for fast, accurate research, surveys, and analyses, built on experience gained through nationwide home and business canvasses each year. Polk's Branch Plants, Branch Offices, and associated offices in strategic cities are staffed with trained personnel, *able to move fast*, on any job.

NATIONAL MAILING LISTS AND MAILING SERVICES

• The people of America are in Polk's list files . . . all businesses, all trades, professions and vocations . . . obtained through personal canvass. Polk also lists all passenger car, truck, commercial car, trailer, motorcycle owners—by make of car, by model, by year, by state, county, town. Know-how gained in filing more than 75 million names annually is available to Polk clients, for any kind of list or mailing service. Facilities for multigraphing, ditto, photo-offset, letterpress printing, reproduction of forms, questionnaires or letters and complete addressing, imprinting and mailing services are available at Polk Headquarters or Branch Production Plants.

These lists are the customer lists for the new products of Peacetime America . . . the prospects for every industry's production. Polk can reach them DIRECT for you, with the right kind of sales message.

DIRECTORY PUBLISHERS FOR 750 CITIES AND TRADES

• For seventy-six years, Polk City Directories have been the accepted basis for population listings in hundreds of American cities. Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the United States and Canada. Polk's Bankers' Encyclopedia is the outstanding Directory in the banking field. There are Polk offices in 30 principal American cities.

Polk directories are current population inventories for the cities of the Country . . . tracing the shifting of America's families from wartime to peacetime endeavor.

WAR WORK

• After Pearl Harbor, the major plant service and skills of R. L. Polk & Co. were at the disposition of the armed services, for war work. Polk was entrusted with two of the largest and most complicated war jobs, for Army Ordnance and Air Corps, requiring tripling of Polk's plant space, plus the services of most of Polk personnel.

With Peace, the Polk plants and the Polk skills have been released for the job of helping the industries of America rebuild a stronger business structure, and upon these skills will be built a new and even greater Polk organization!

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** ~ aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising** ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising** ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

*A Unique Service Provided
By The Publishers of Your City Directory*

*T*he publishers of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

POLK'S PORTSMOUTH

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1947

INCLUDING
EDEN PARK, NEW BOSTON, NORTH MORELAND
AND SCIOTOVILLE

Copyright, 1947, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

WHY A BUYERS' GUIDE ?

★ *It is customary to include a Buyers' Guide in the City Directory because :*

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.
