A Glance At The Past

In 1860, there were four school districts in Lucasville and the surrounding area.

They were the Johnson School, north of Lucasville at Clifford; Lucasville School, West Street, and later moved to North Street; Cockrell's Run School; and Marsh School, U.S. Route 23, north of Houston Hollow Road.

In 1878, the Miller's Run School was built making five school districts in the Lucasville area.

The schools in Valley Township were consolidated in 1900, and the first central school was located in Lucasville.

In 1911, a new high school was erected. It is now the older section of the former Valley Elementary.

Due to an increase in enrollment, in 1928, another new high school was built. It served as the high school until 1956, and currently is Valley Intermediate.

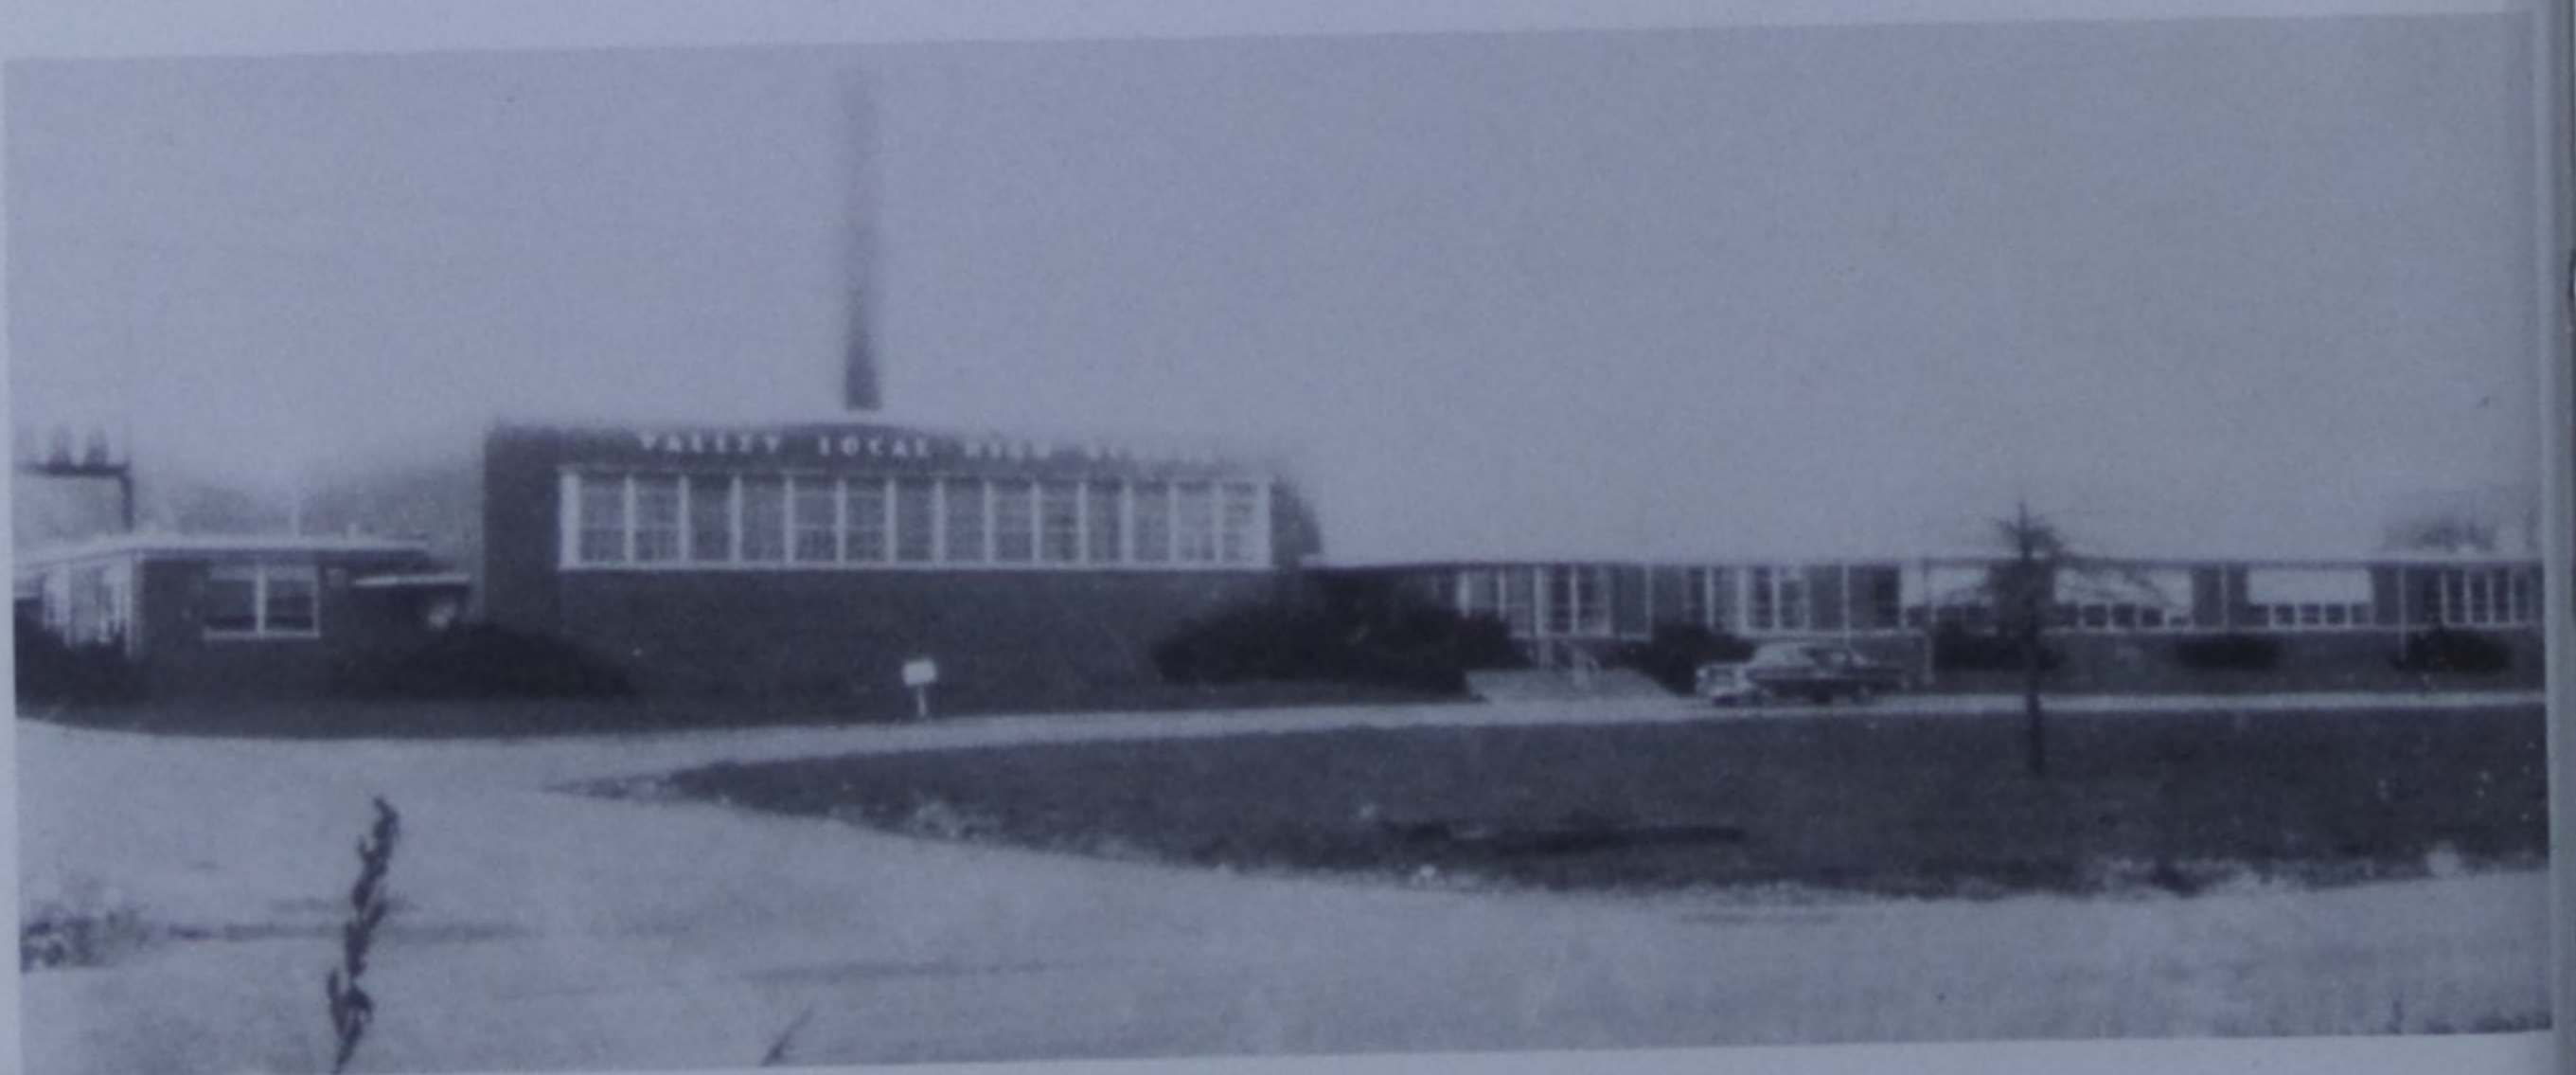

Construction on the "old" high school began in 1955, with 1957 being the first graduating class. It is currently being renovated to house grades six through eight in the Valley Local School District.

Former Valley Elementary. This building was built in 1911 and once served as Valley High School.

Valley Intermediate School. This building was built in 1928 and served as Valley High School until 1956.

Valley High School. Construction began in 1955. The Class of '57 was the first class to graduate from this building.

The Dream Becomes Reality

*T*he levy was passed, the land purchased, construction began, and we were able to see that the dream was finally becoming reality.

We eagerly anticipated the completion of the new schools. Monday, April 12, 1993, was set as the date for instruction to begin in the new schools. Spring break was spent moving books and other supplies from the old buildings into the new.

Unexpectedly, on Sunday, April 11, a riot at the Southern Ohio Correctional Facility put the dream on hold. Classes in the Valley Local School District were cancelled for nine days.

When the uprising was settled, the dream finally became reality as students and faculty entered the new buildings on Friday, April 23, 1993.

A Message From The Superintendent

DREAM BECOMES REALITY AS VALLEY BUILDS

FOR THE 21ST CENTURY

This dedication booklet is provided to commemorate this historic occasion and introduce to the public our new Valley Elementary and new Valley High School. The construction of these facilities is an event that brings a great deal of pride to our local school community. The history of our school district is well documented and preserved, but now we have facilities to take our students well into the 21st Century.

To preserve these memories for our current high school students, as well as the supportive community members who made this dream possible, we included a sixteen page color section in our 1993 annual yearbook, as well as printing these copies of this special commemorative issue.

I feel that it is appropriate to dedicate our new schools to the students for their enhanced learning opportunities, to the staff and students for their excellent environment in which to teach and learn, and to our community which so proudly supported our most precious assets - our children.

The new high school is built for 500 students and the elementary for 600 students. Both climate-controlled buildings feature large computer rooms and libraries. The floors are carpeted or tiled in appropriate areas. The elementary contains four classrooms for each grade level, kindergarten through fifth grade, as well as a carpeted gymnasium designed especially for elementary students. Both buildings received new furniture.

The high school features academic classrooms and specialty rooms for art, drafting, music, industrial arts, home economics, laboratory science and business. The gymnasium area includes locker rooms, storage areas for equipment, a training room, and a weight room. The two-level cafeteria, seating more than 400 persons, contains a stage with lighting suitable for musical and theatrical productions. Each student will be assigned his own locker, equipped with a combination lock.

There are many other unique features to our buildings for meeting the needs of our handicapped. We have the following: (1) hardware that is easy to operate on all doors, (2) alarms for the hearing impaired, (3) braille on room signs, (4) curb cuts, (5) Extra exterior and interior lighting, (6) restrooms and facilities easily accessible to all.

The Valley Local students, staff, and Board of Education invite you to take a good look not only at our new facilities, but at a leader in education, the VALLEY LOCAL SCHOOLS.

GROUNDBREAKING

Groundbreaking ceremonies were held on the site for the new elementary and high school buildings on Tuesday, May 28, 1991.

The students and staff of the Valley Local School District were bused to the site to participate in the activities. Many local and state dignitaries were in attendance, as well as many parents, community members, and retired teachers from the district.

Performances were given by the high school chorus and band.

Following the groundbreaking ceremonies, a reception was held at the high school where architectural plans were displayed and refreshments were served.

Vernal G. Riffe, Jr., Ohio Speaker of the House, talks before the large crowd on hand for the groundbreaking ceremonies.

Buses carrying the students and faculty of the Valley Local School District arrive at the site of the new schools for the groundbreaking ceremonies.

The walls of the elementary building take shape as construction continues on the high school as seen in the background.

Selected senior and junior class members are given a tour of the construction site during the Spring of '92.

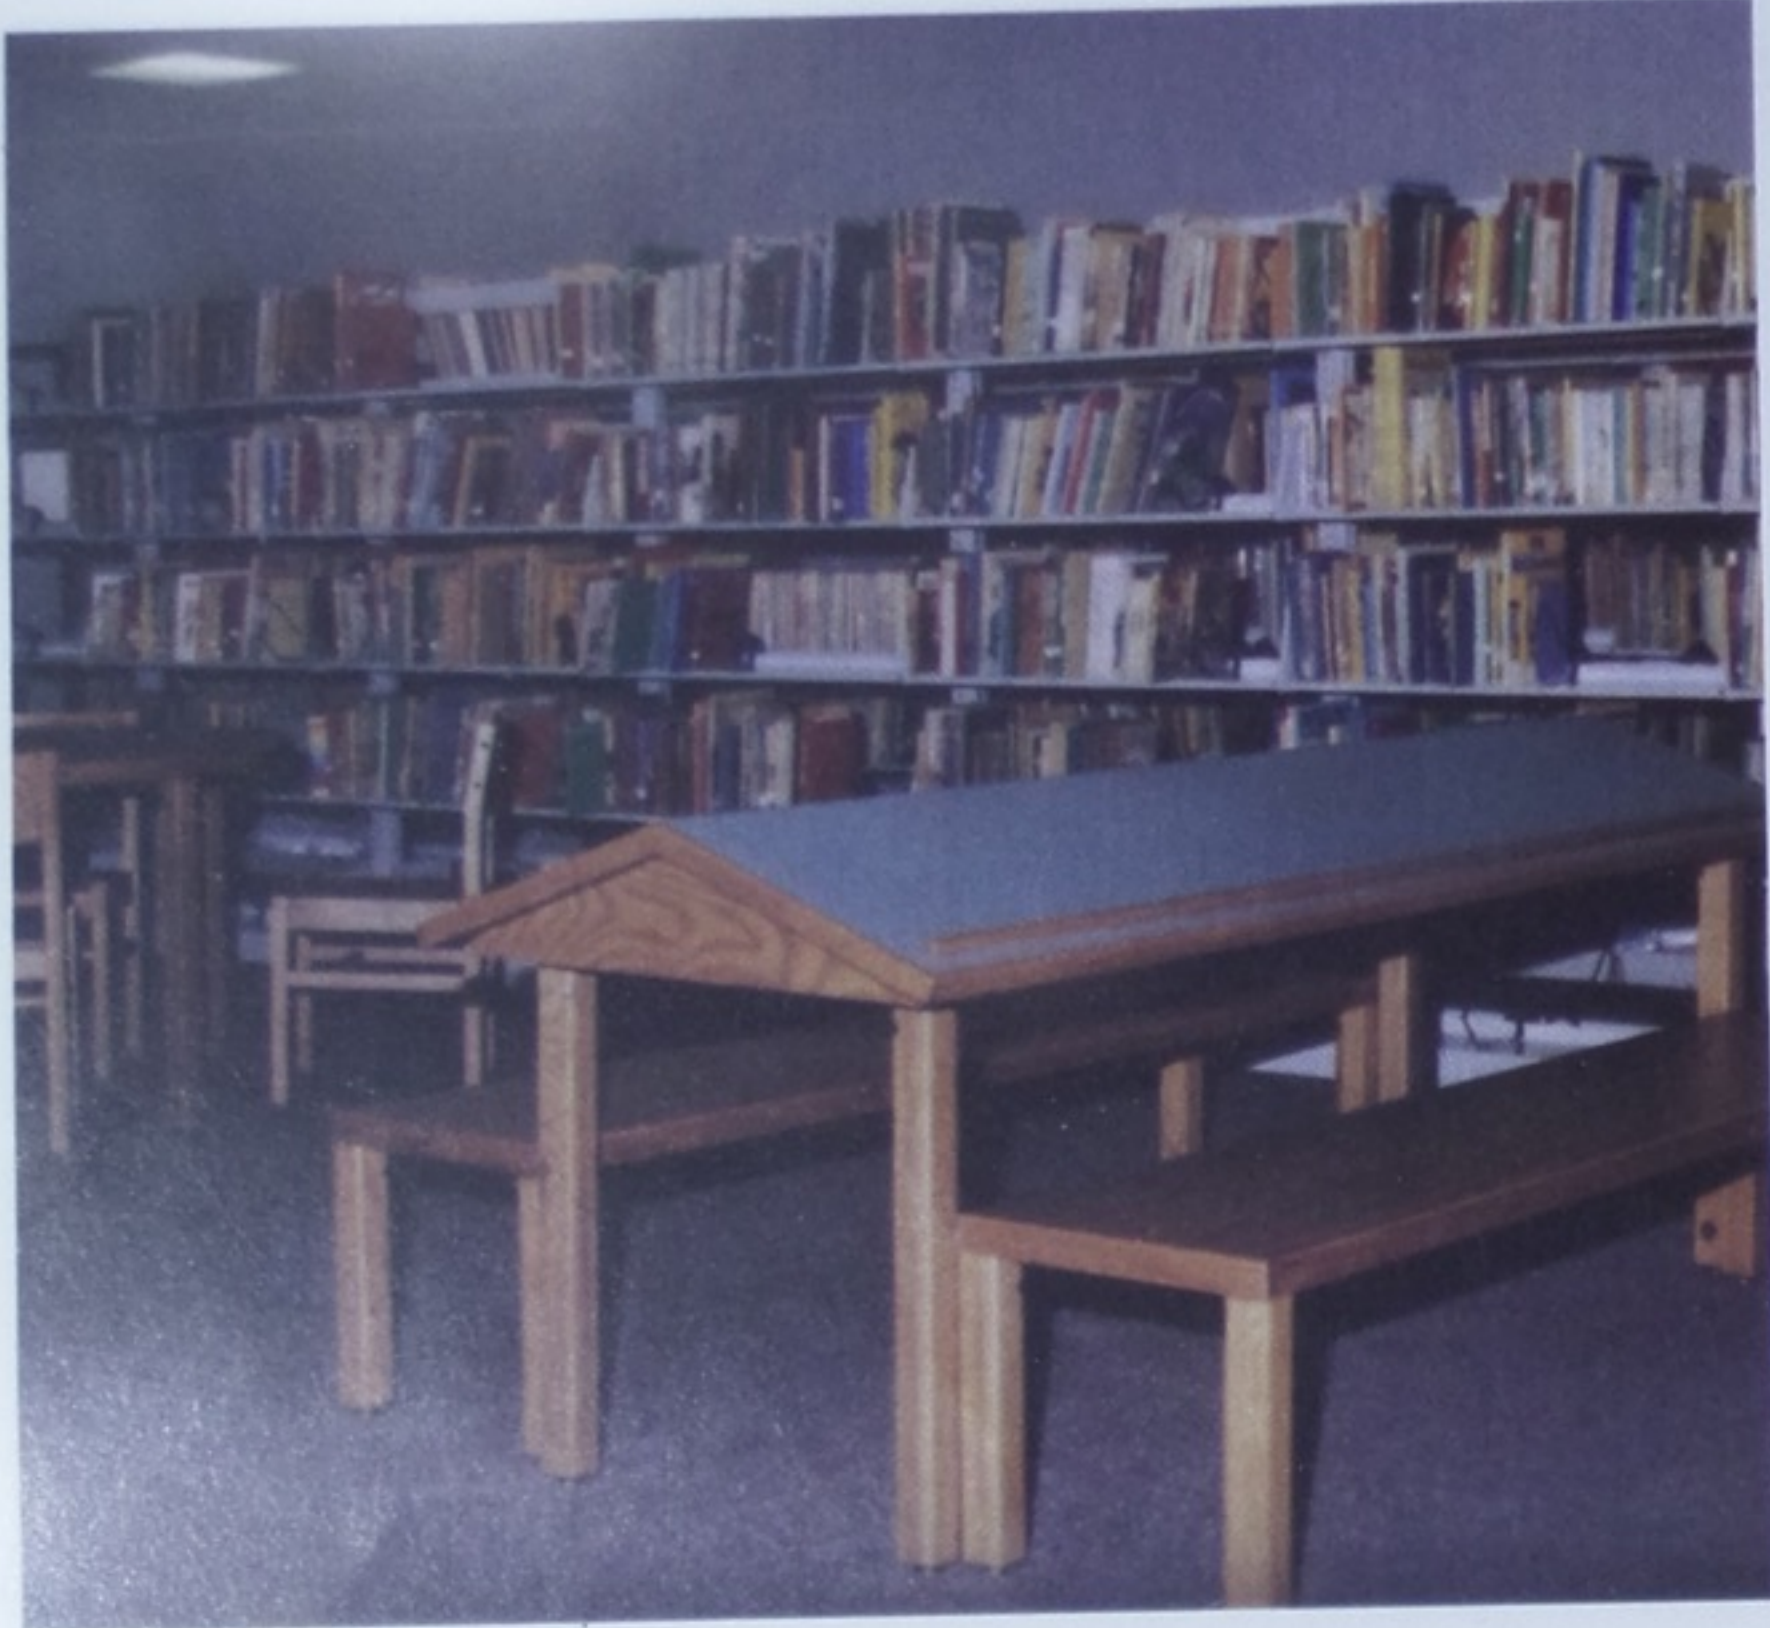

*H*igh school student Laythan Bragdon sings, "The Star Spangled Banner," before the large crowd. A portable stage was set up on the site where the groundbreaking ceremonies were held.

*V*ally School Board members Charles Wilson, Don Crabtree, Carl Crabtree, and Roger Gahm, along with Speaker Vern Riffe, and State School Board member, Joanne Thatcher, break ground for the new schools.

*T*he Valley High School Chorus, under the direction of Mrs. Janet Hancock-Spears, performs during the groundbreaking ceremonies.

The spacious elementary library is equipped with furniture designed specially for grade school students. Approximately 98% of all the furniture in both buildings is new.

The classrooms in the elementary building include open storage areas for students' coats and belongings. Also, incorporated into each room are built-in storage and file cabinets for teacher use.

A kindergarten classroom in the elementary building. All elementary classrooms include ample closet and storage areas, sinks, and plenty of space for student activities.

The elementary gymnasium with its Pro Gym carpeted floor for noise control, has a bleacher section on the west side and stage on the east. The gym was designed to accommodate both school and community activities.

The humor of the construction workers is depicted in this picture taken during construction of the high school.

Architectural plans take shape as walls are erected during construction of the high school library.

The high school's construction moves forward as the brickwork is completed and the building is put under roof.

Valley Schools Prepared For The 21st Century

*E*ducation in Ohio has undergone many changes over the past few years and many more changes are expected. The recently completed elementary and high school buildings in the Valley Local School District have been designed with these changes in mind.

The number one priority in designing the schools was academics. All classrooms have been created to facilitate learning and include ample storage, modern desks, carpeting (which helps eliminate noise), and are air conditioned for comfort. The speciality rooms such as the computer labs, science rooms, art rooms, etc., have been designed and furnished with modern equipment to increase student learning opportunities.

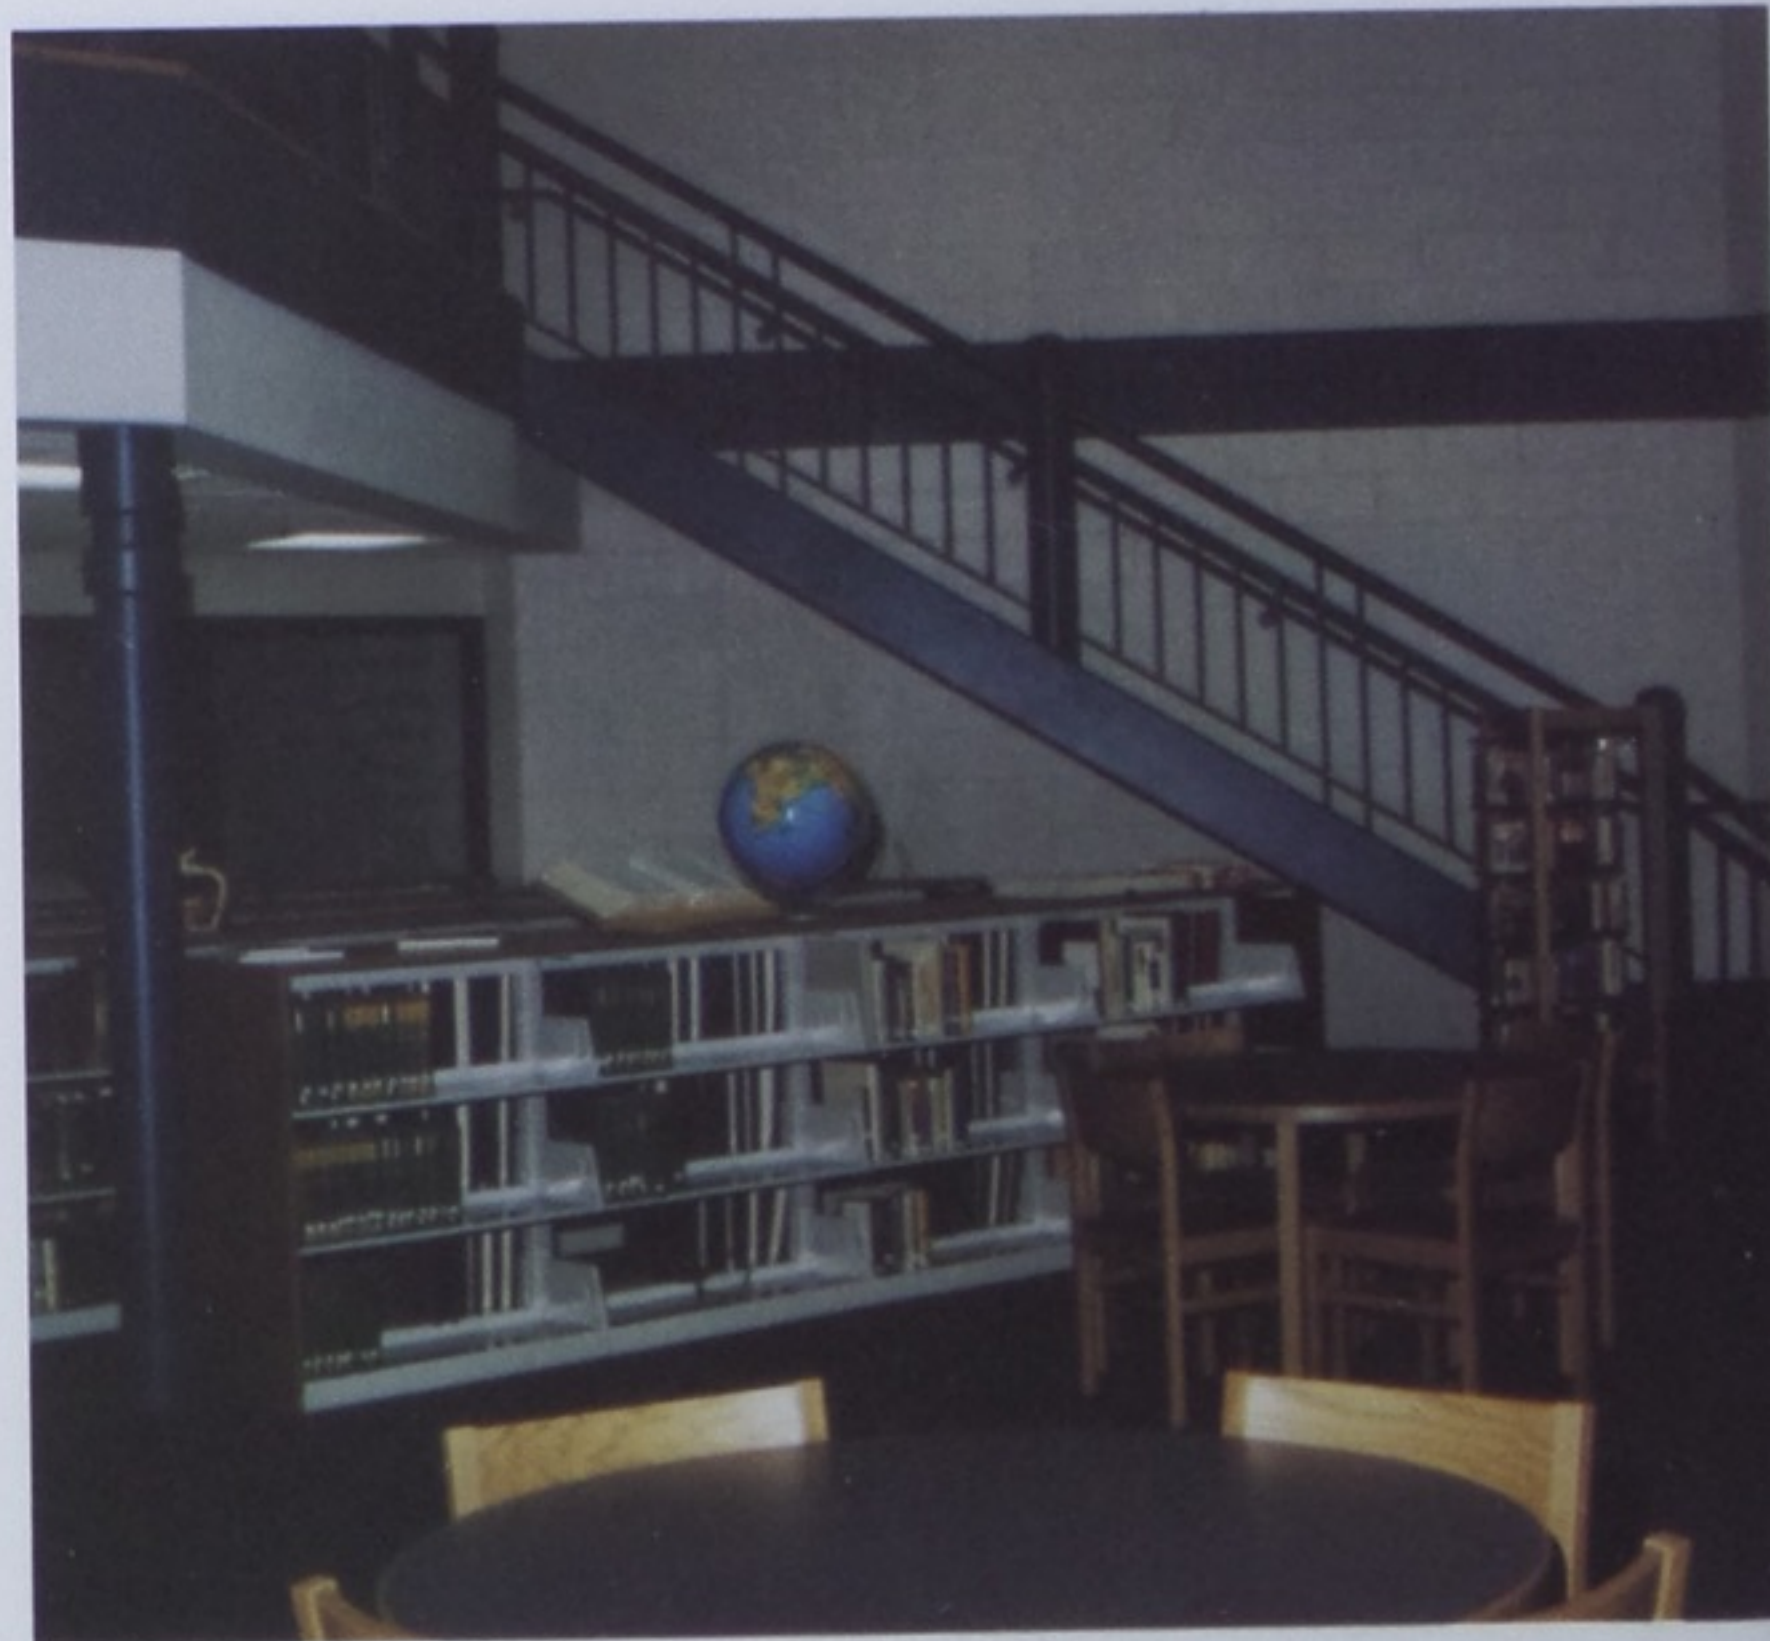

Since a well-rounded curriculum focuses on more than scholastic achievement, modern sports facilities have been created for students. The gymnasiums have been designed to enhance physical education programs, as well as extracurricular athletic events.

The completion of the two new buildings, along with the future renovation of the old high school, will enable the Valley School District to meet the educational needs of students as we move into the 21st century.

A unique feature of the high school library is the book storage mezzanine.

*T*he modern furnishings in the high school library helps create an atmosphere conducive to reading for pleasure, studying, or research work.

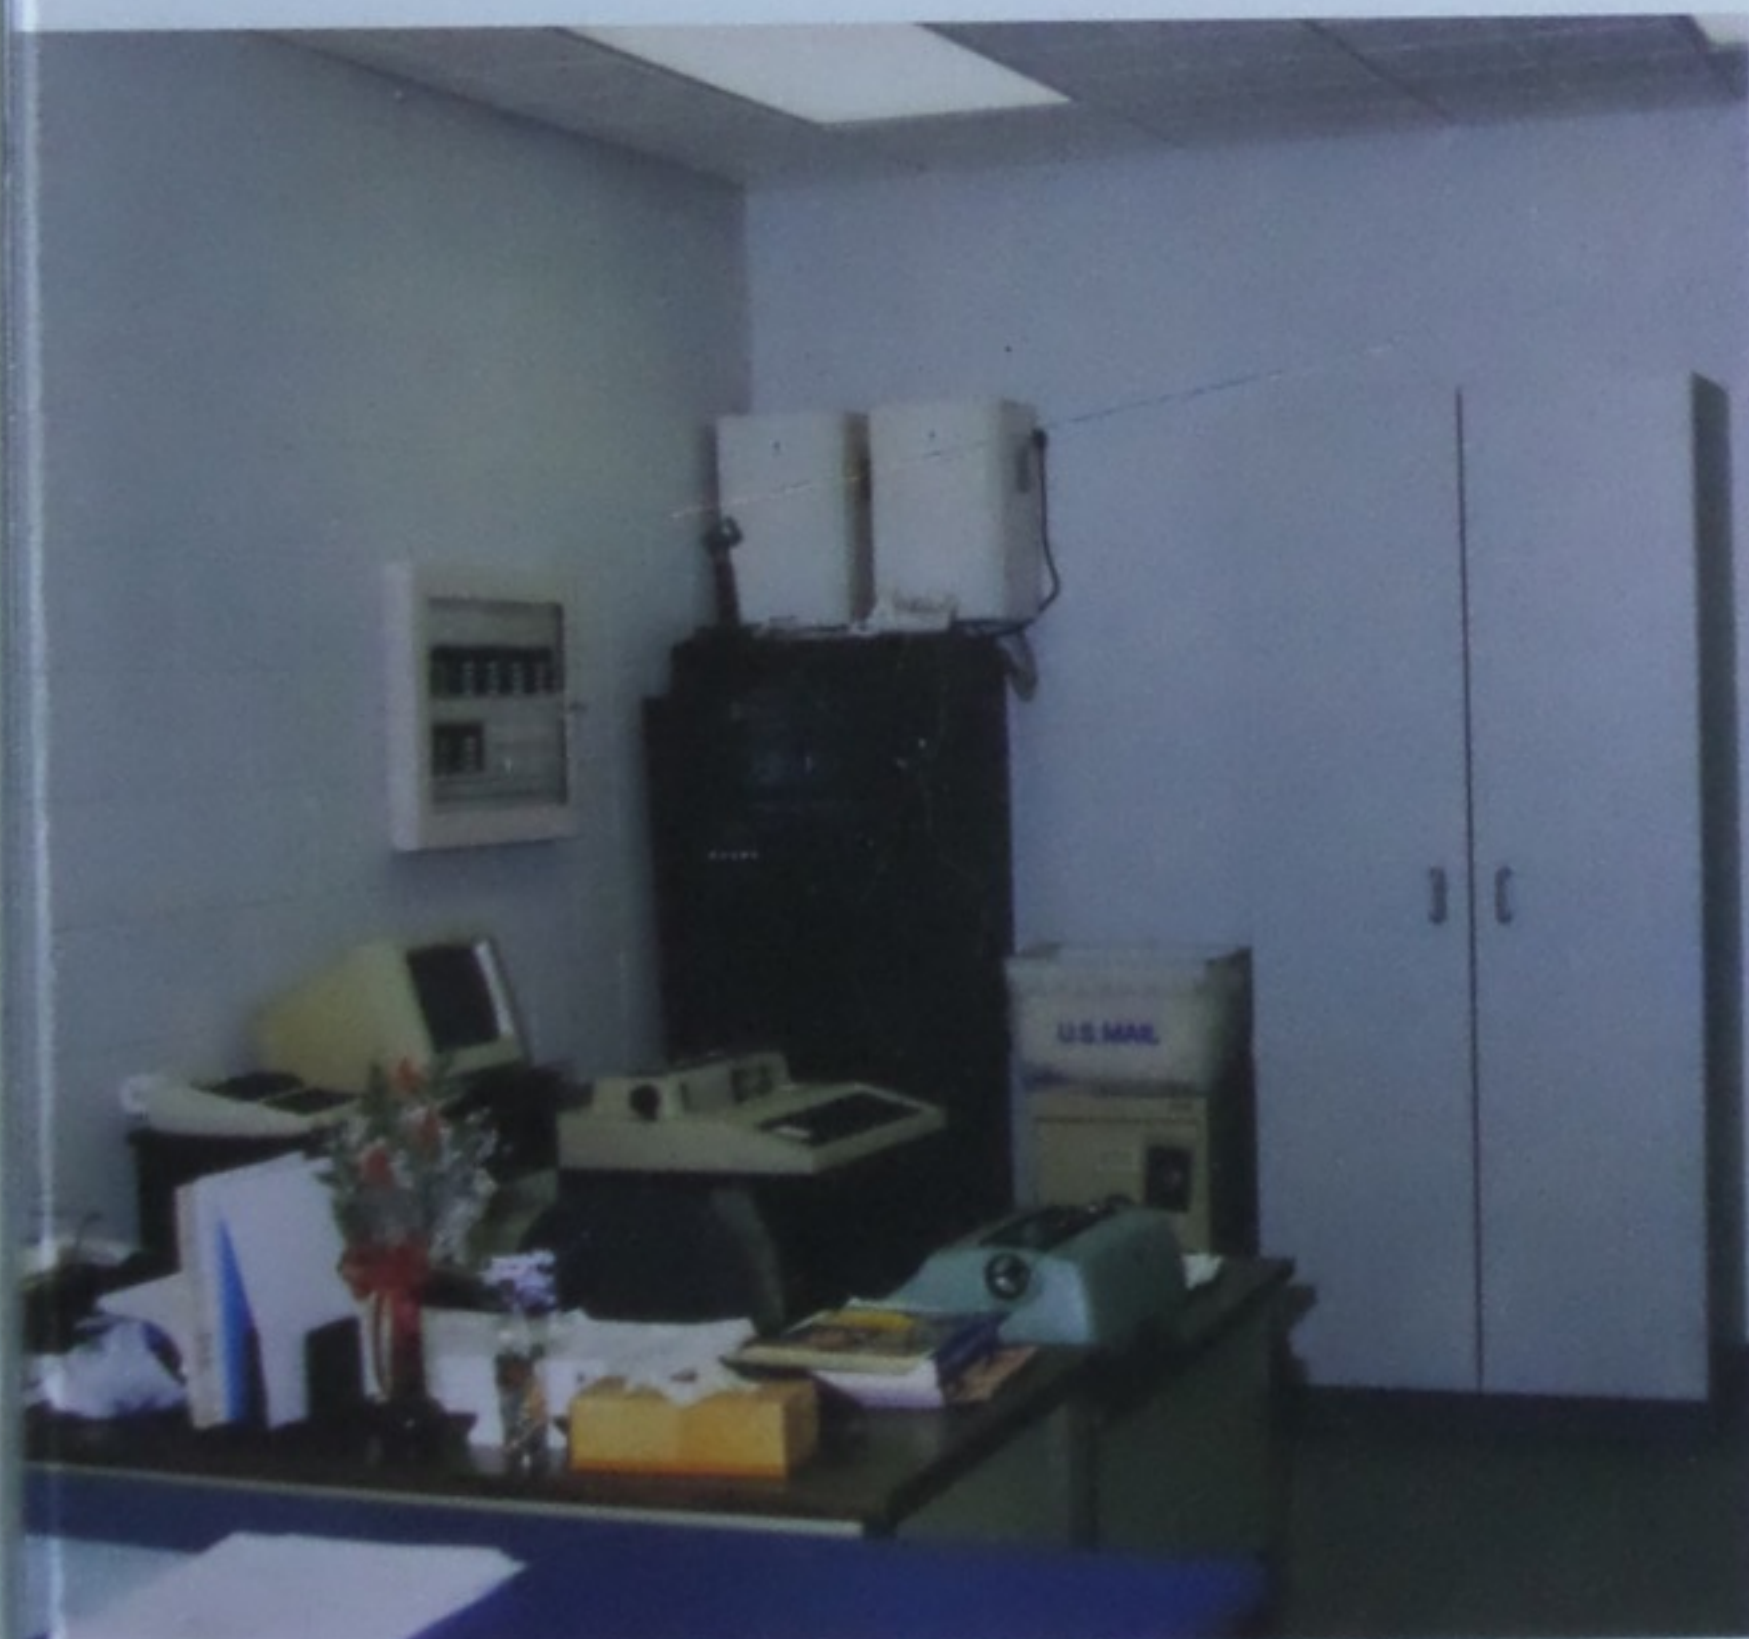

*T*he high school library's design allows for easy access of research materials. The stairway leads to the second story book storage mezzanine.

This second grade classroom shows the ample storage areas, spaciousness of the rooms, and energy-efficient windows. The windows installed in both buildings are of one-inch insulated glass with an additional third pane on the inside. Venetian blinds are incorporated between the inside and outside glasses of the windows.

The students' restrooms in the elementary building have been designed for easy access for the handicapped. The automatic sinks are open to the hallway for teachers to supervise students' activities. The primary colors, shown on the tiled walls, are appropriate to an elementary school and are used throughout the building.

The secretary's office, located inside the main entrance of the elementary building. Up-to-date public address and phone systems, and individual thermostats in each room are just a few of the pluses associated with the new schools.

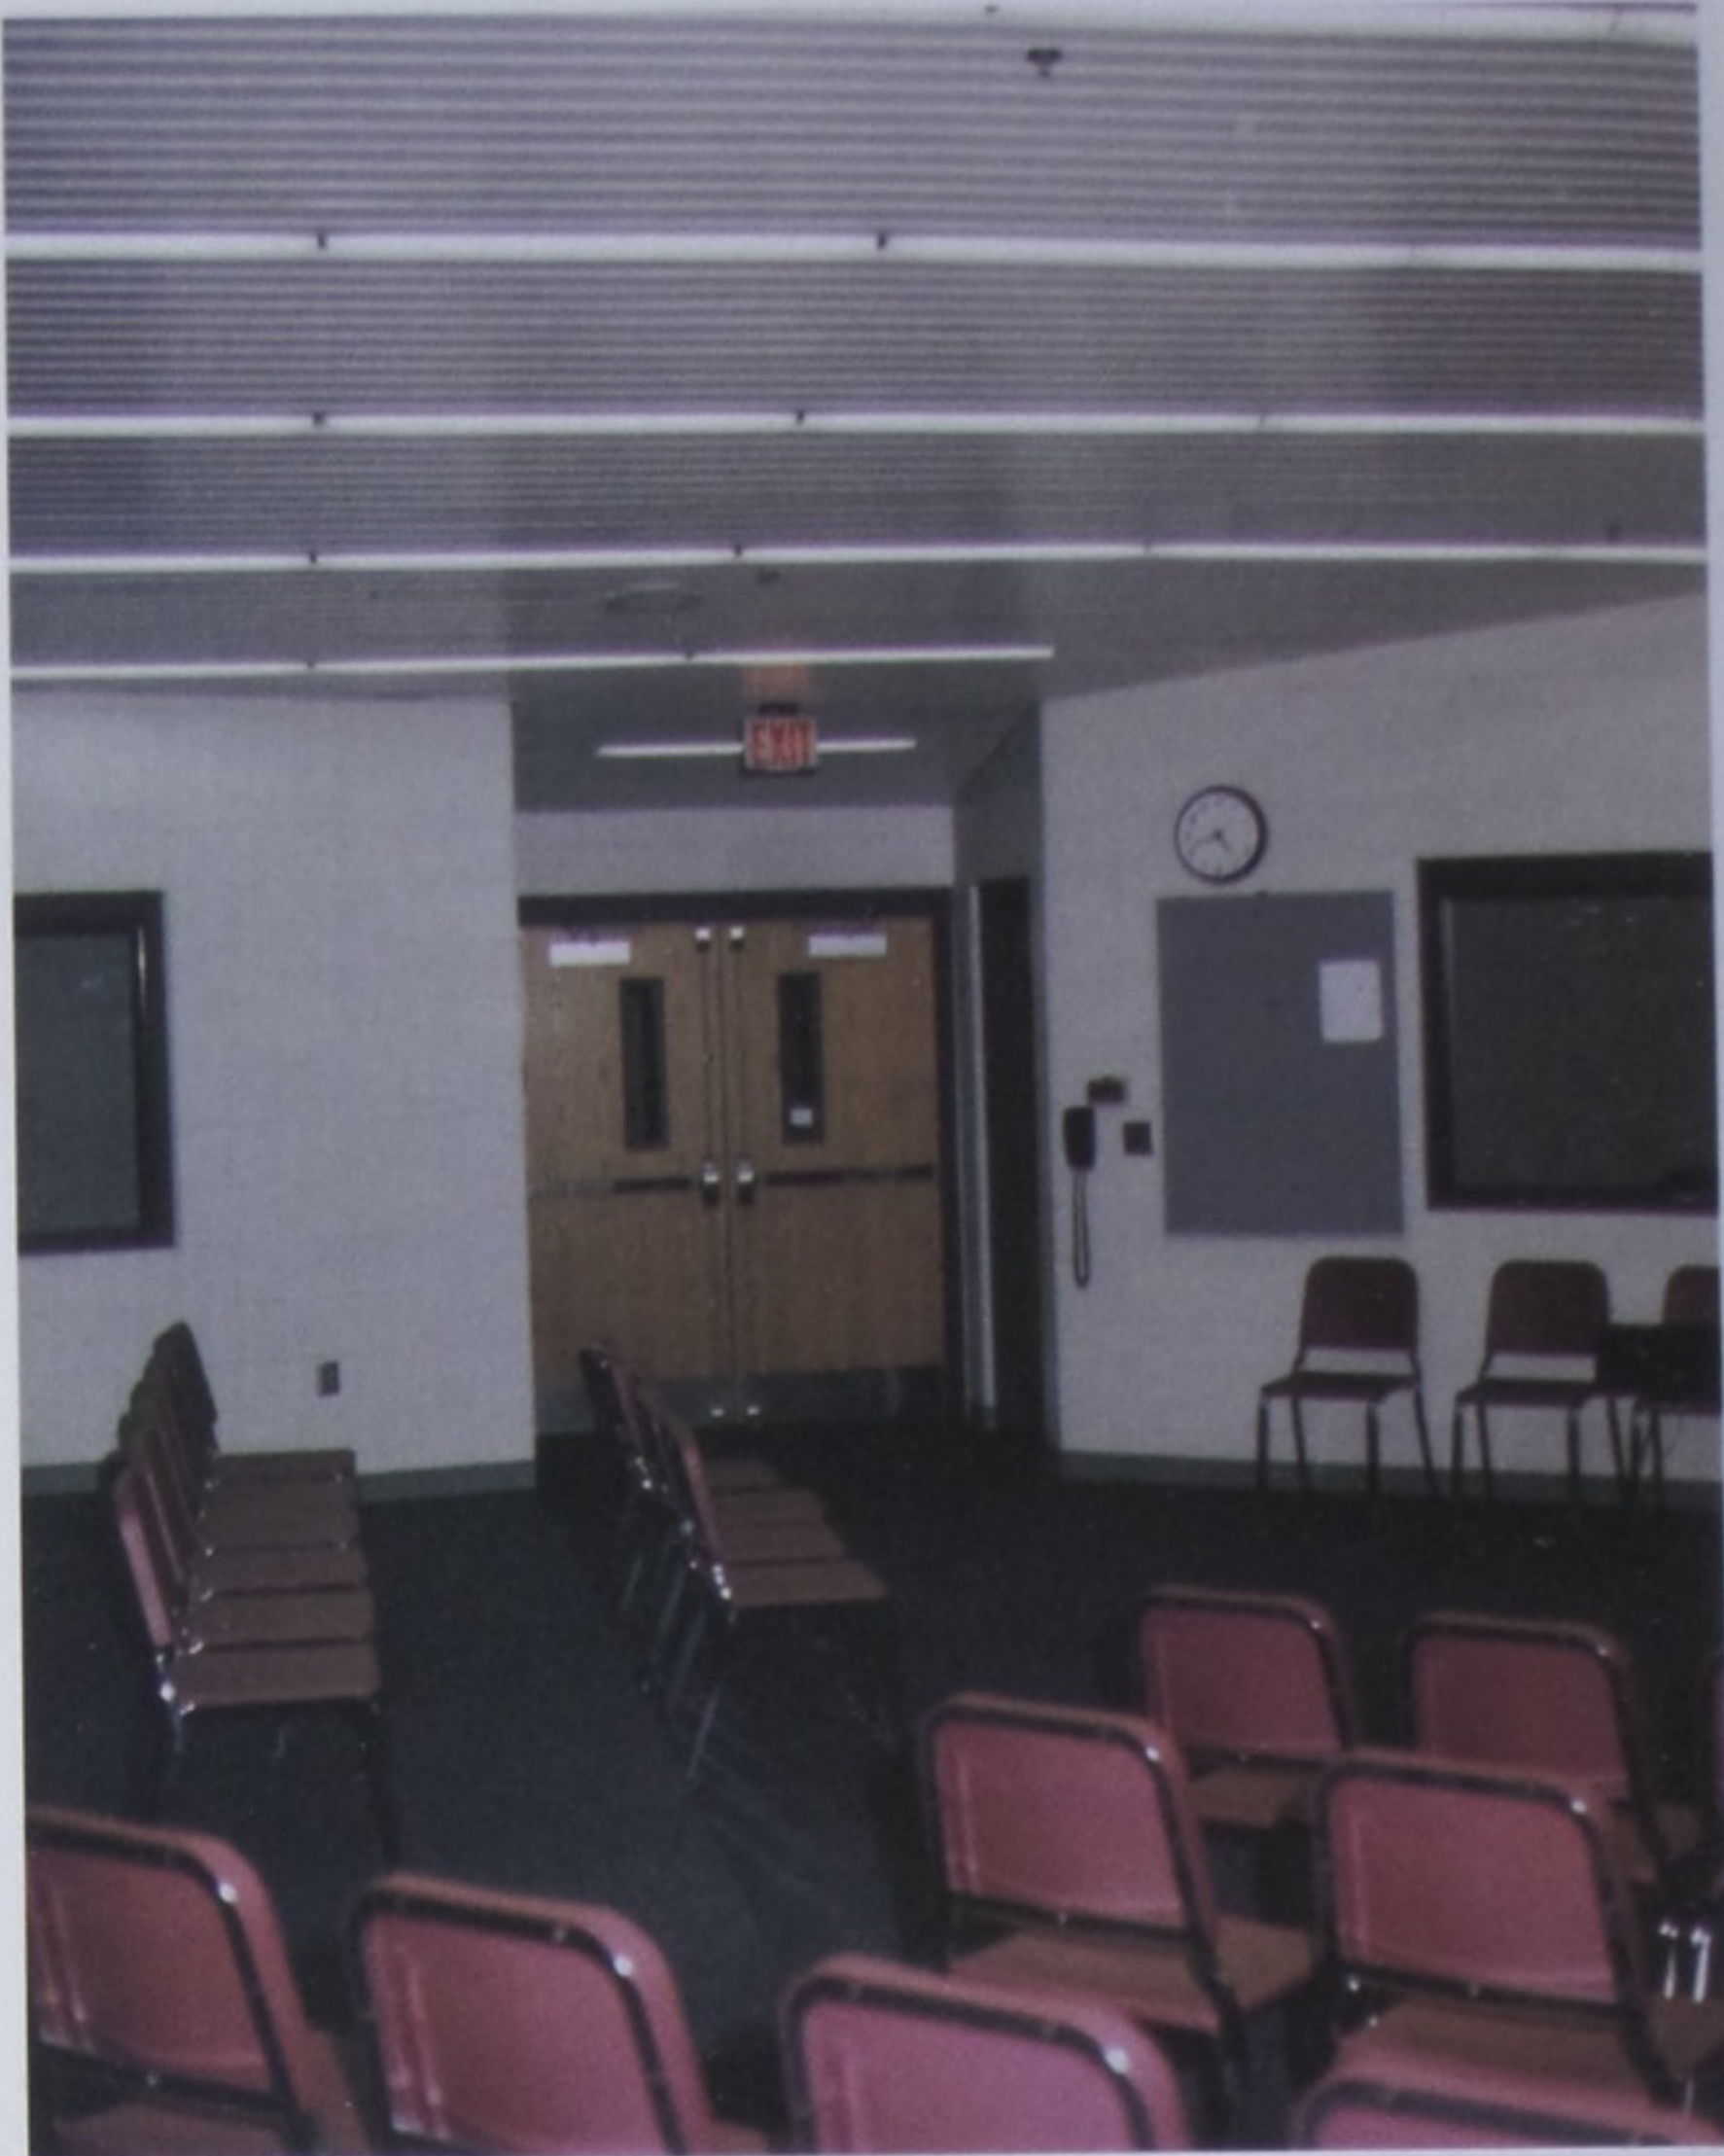

A second grade classroom featuring the Leisure Boards which have been installed in all of the classrooms in both buildings. The contemporary surface of the Leisure Boards allows not only for the use of traditional chalk, but also water-color markers and permanent markers.

The Industrial Arts area of the high school has been equipped with modern machinery. The staircase leads to a loft for storage. An overhead door to the room allows for convenient delivery of supplies.

The Music Department features a large tiered practice area. Also included are a uniform storage room, instrument storage room, small practice room for students, and teachers' office.

The Home Economics department consists of two large rooms divided by a teachers' office and storage area. The sewing and kitchen areas have been provided with up-to-date equipment so students can gain hands-on experience.

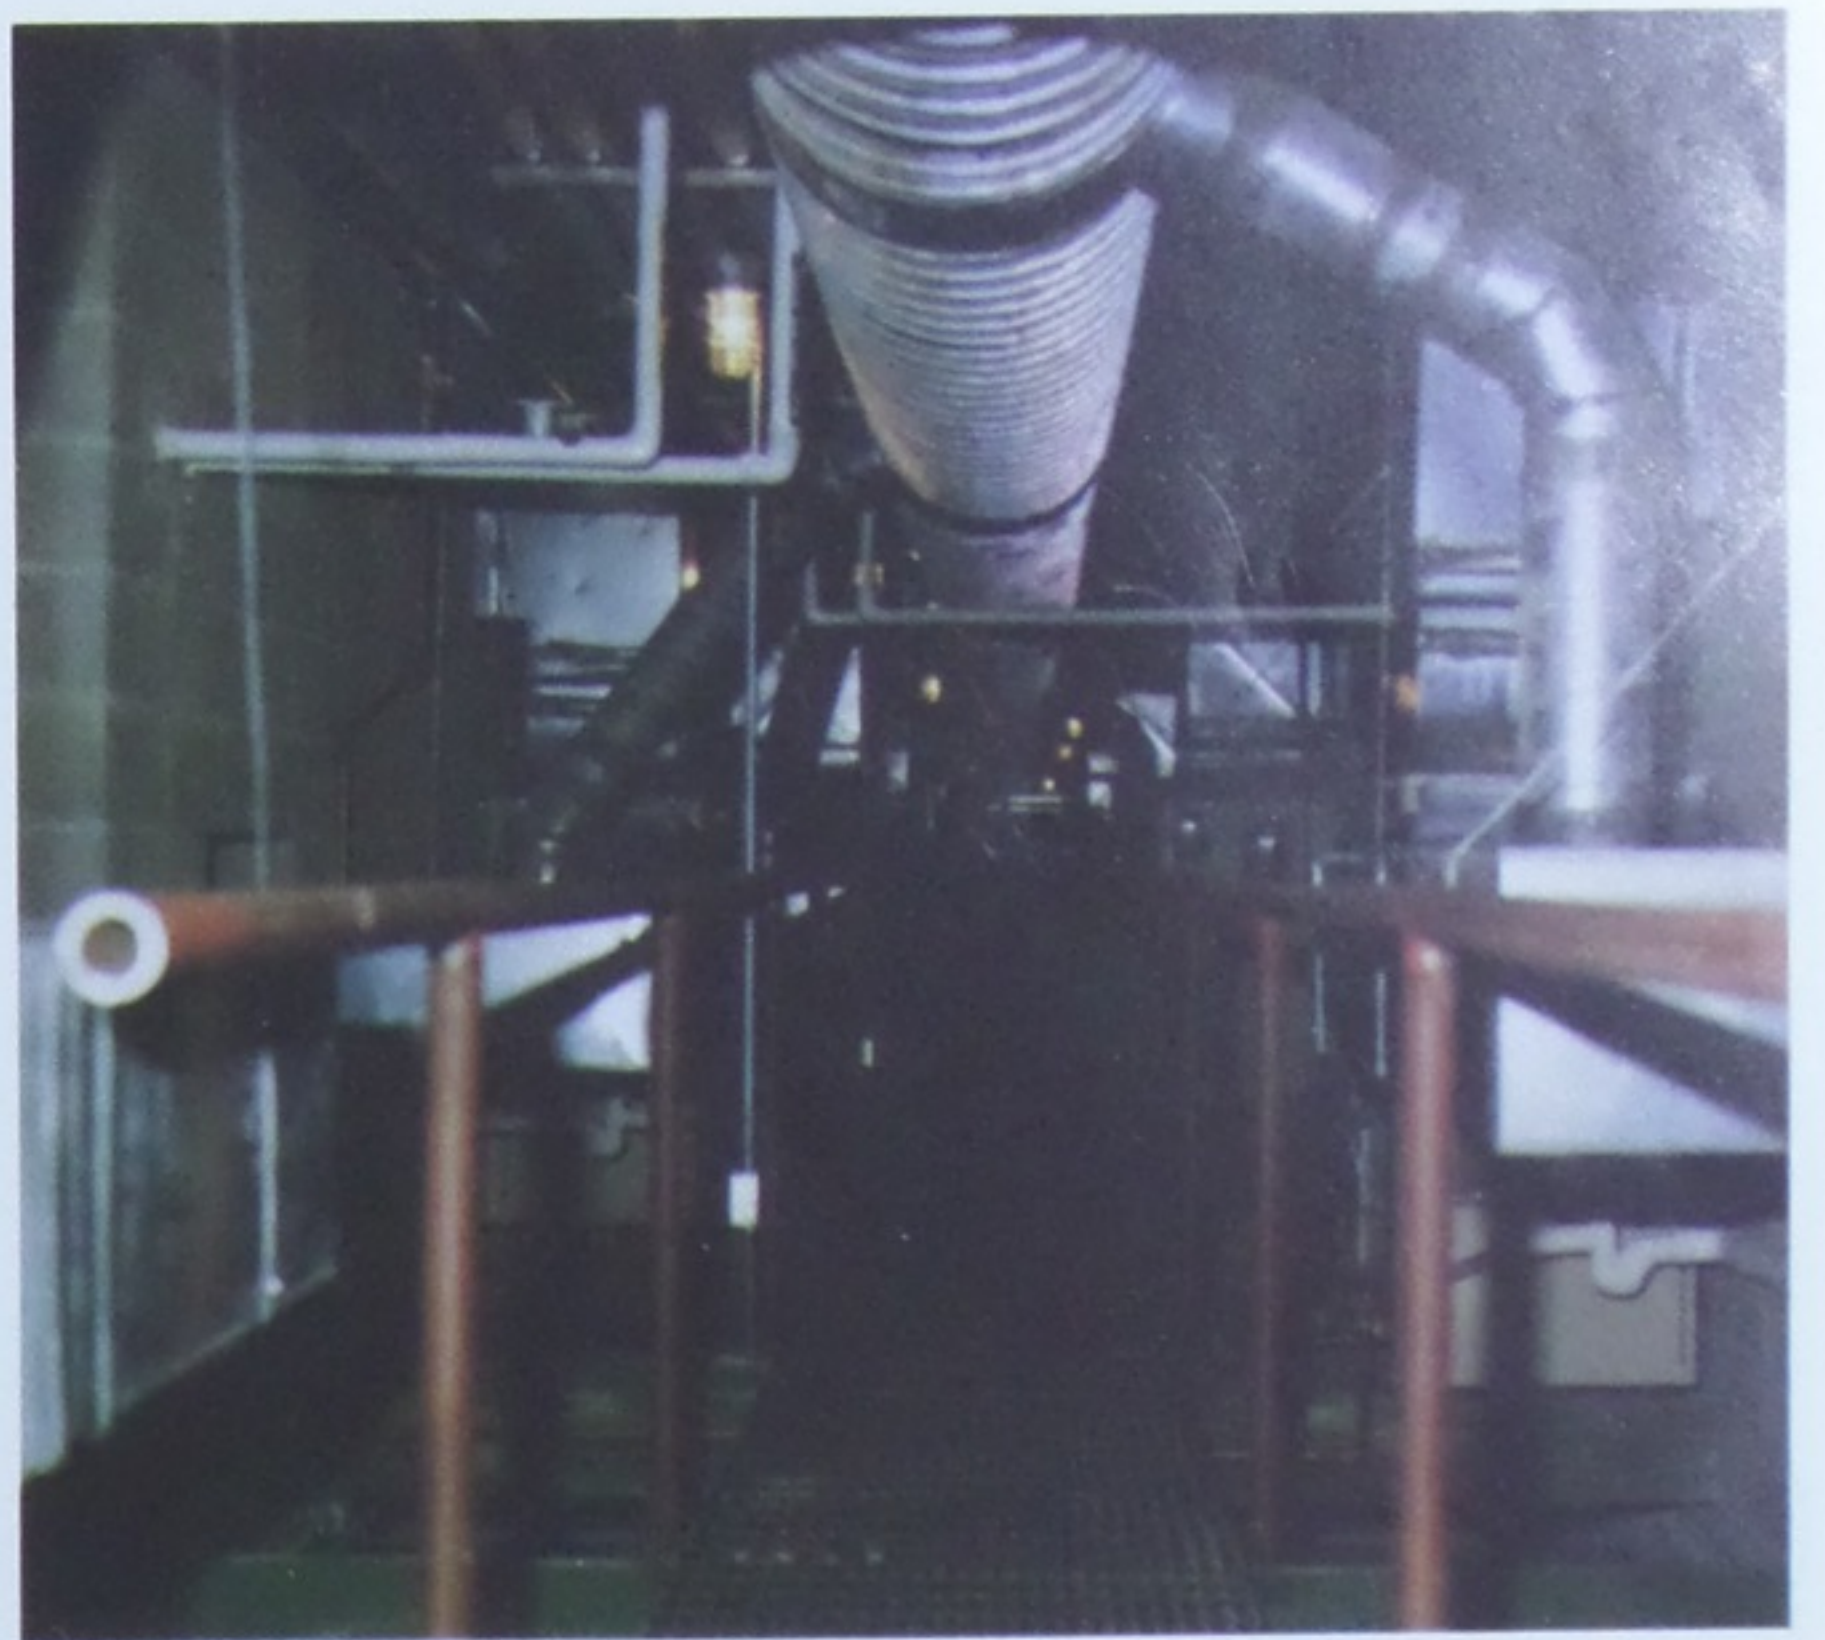

The hallway in the west wing of the high school. The student lockers located in the hallways can be programmed with five different combinations, and will be changed at the beginning of each school year.

Centrally located in the high school is the Cafetorium. This bi-level room features a contemporary, but functional, seating area for students' lunches, banquets, and a stage for performances. The Cafetorium also includes a concession stand area for ballgames.

The spacious kitchen area of the high school has been furnished with modern food preparation equipment and includes an efficiently designed serving area for student lunches.

The high school gymnasium features a West Mezzanine and East Mezzanine and seating for 2000+ people.

This catwalk, above the rooms, provides for easy access to heating and cooling pipes, electricity, and water lines should maintenance be required.

*E*lementary students are dismissed following the first day of instruction in the building.

*H*igh school students prepare to leave the building at the close of a school day. They are shown in the central hallway just inside the main entrance.

Special Thanks

This special section on the new schools in the Valley Local School District has been made possible through the hard-work and dedication of many people.

Special thanks to Mr. Tom Adkins for information and pictures on the history of Valley Local; Matt Miller of Georgian Studios for pictures of the completed buildings; and Mr. Jeff Hamilton, Administrative Assistant/Project Manager, and Mr. Roger Gahm, school board member, for information regarding materials used in the new schools. Also, special thanks to those contractors whose contributions made it possible.

This kitchen area separates the two developmentally handicapped classrooms. These students need experience in daily living skills, and the modern facilities provided in the new high school will help meet the state's requirements of a functional curriculum.

The commercial room provides for adequate space of office machines, so students can learn typing and other skills for jobs after completing high school.

The new buildings have been designed with maintenance a top priority. The buildings have energy-efficient gas boilers and water-loop heat pumps, and are partially fire protected with sprinkler systems.

The science labs feature modern equipment for student use along with plenty of storage areas. The lab tops are of McDermott stone.

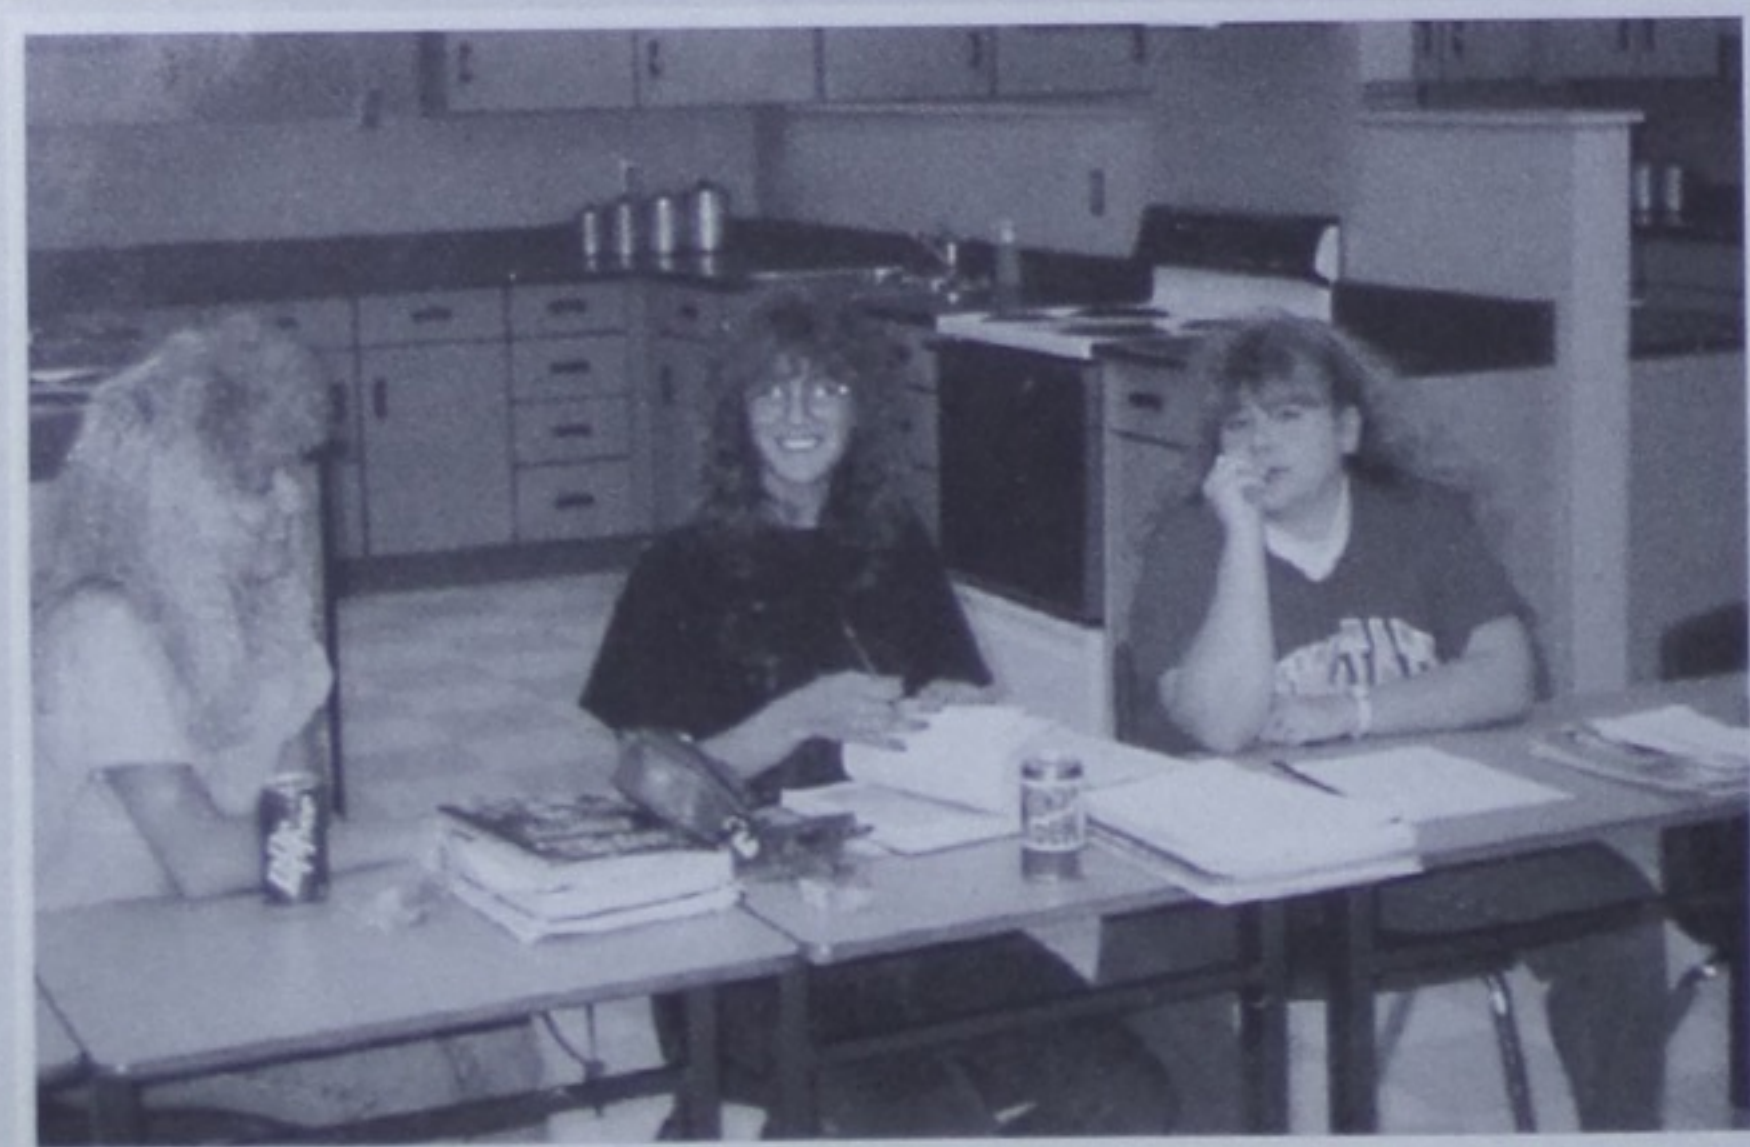

Students brave the cold to support the football team. The '92 football team finished the season 10-0.

The cheerleaders show how proud they are of the '92 football team's accomplishments during the S.O.C. Assembly.

Beyond Imagination

Cathy Woodford and Danielle Arthur wait to appear as witnesses during the Mock Trial team's state competition in Columbus.

In life, there are many things one tries to envision. Although one may speculate how things will be, some happenings often go beyond imagination.

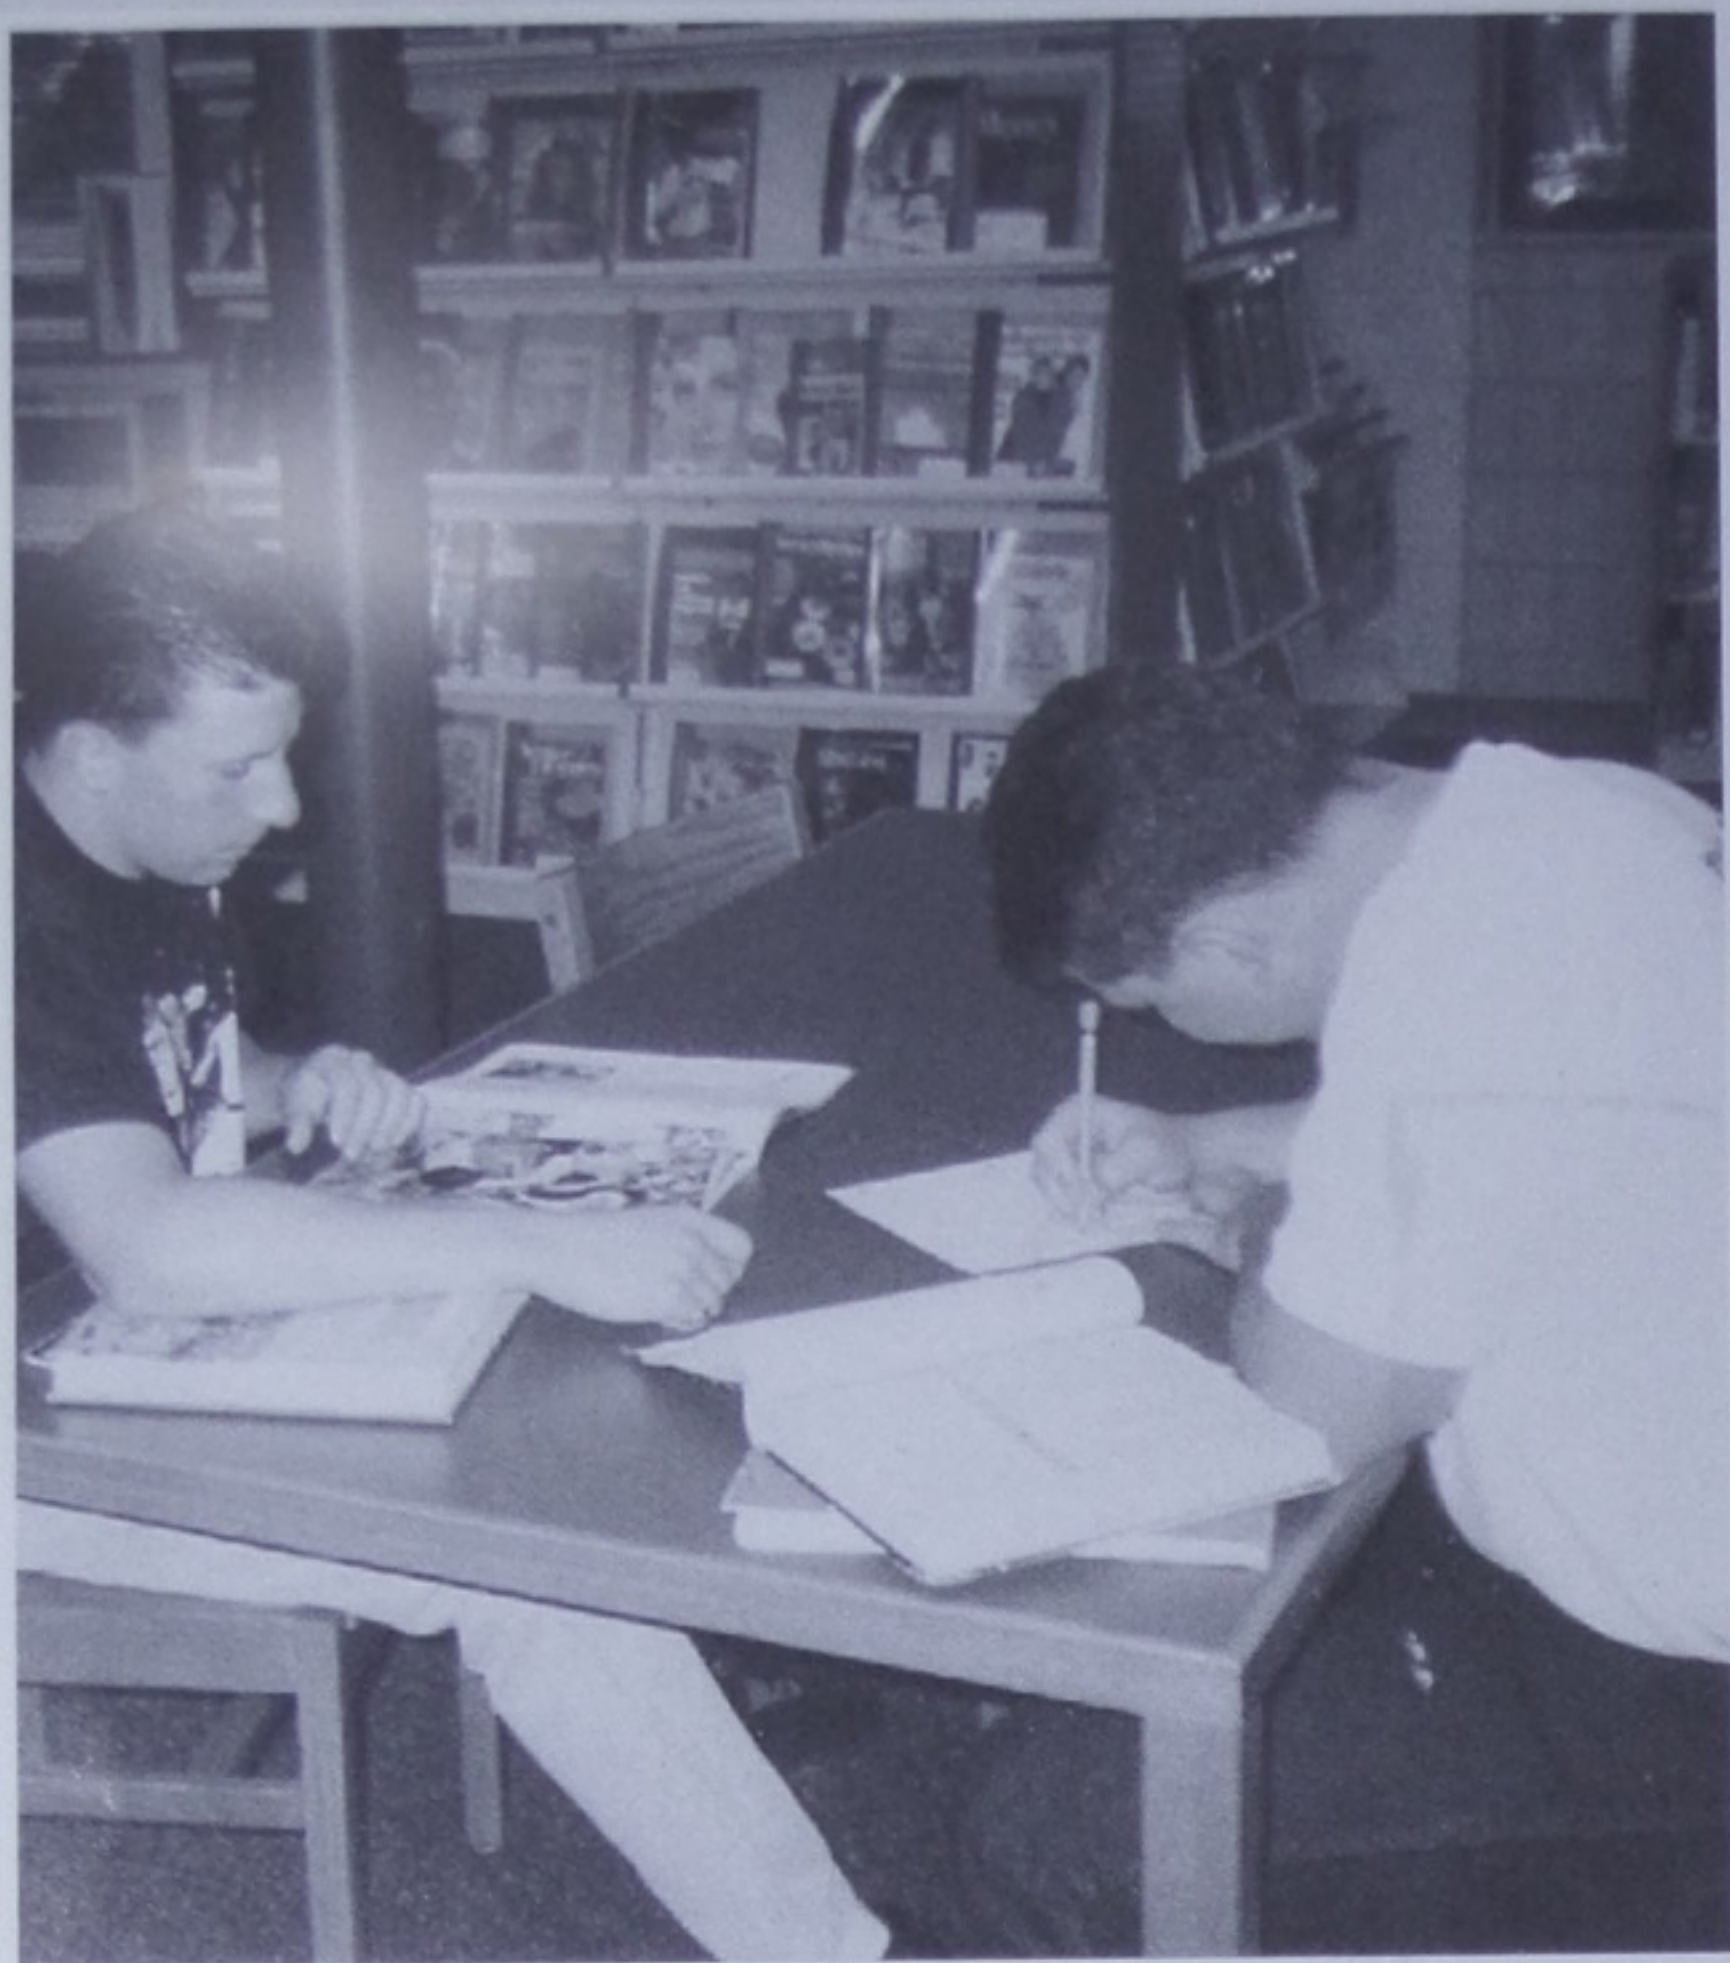

The 1992-93 school year at Valley High School included many special events. There were those occurrences, however, that went beyond imagination.

These include the football team's 10-0 season; the Mock Trial team in state competition; our new schools being completed; the riot at the Southern Ohio Correctional Facility; the girls track team becoming District Champions; and our Lady Indians softball team competing in the state tournament.

These are just a few of the notable events and happenings this school year that went beyond imagination, and helped make the 1992-93 school year such a memorable one.

MEMORIES FOR A LIFETIME

Mrs. Virginia Ratliff has dedicated twenty-eight years of her life to education.

Mrs. Ratliff has spent twenty-four years teaching at Valley High School; three and a half years as a Girl Scout Advisor for Scioto, Pike, Jackson, and Vinton counties; two years teaching at Hellier High School in Pike County, Kentucky; one year teaching at Paul Blazer High School in Ashland, Kentucky; and one year teaching at McKinley Junior High in Portsmouth, Ohio.

Mrs. Ratliff graduated from Boyd County High School. This is where she started her involvement in FHA/HERO as a charter member.

Mrs. Ratliff furthered her education at the University of Kentucky. While at the University of Kentucky, Mrs. Ratliff met her future husband, Jules Ratliff. They were married on June 1, 1953. They have two children, Dr. Eric Ratliff, who is a veterinarian and President of the Ohio Veterinarian Relief Service, and Keith Ratliff, who works at Martin Marietta. Both are graduates of Valley High School.

Mrs. Ratliff has received many honors throughout her teaching career. She is a Master Advisor in FHA/HERO which is a National Honor. Mrs. Ratliff has been an advisor for FHA/HERO for twenty-seven years. She is a member of two teachers' honorary societies: Delta Kappa Gamma Interna-

tional and Alpha Beta of Ohio. Mrs. Ratliff is also a member of the American and Ohio Vocational Association, American and Ohio Home Economics Association, Ohio Education Association, and National Education Association.

Upon ending her teaching career, Mrs. Ratliff plans to take a painting course, redecorate her house, put together a family cookbook, work on the camp she has in Michigan, and travel.

On behalf of the Annual Staff and everyone else at Valley High School, I would like to wish Mrs. Ratliff the happiest and longest retirement possible. Thanks for all the memories you have given us!

ACADEMICS

MOCK TRIAL TEAM

The Mock Trial team's case this year dealt with the fourth amendment right on illegal search and seizure.

Representing the state was Sherry Woodford, Direct Attorney, and Kim Taylor, Cross-Examiner. Witnesses for the state were Cathy Woodford as Sandy Beech, and Danielle Arthur as Officer Terry Copper.

For the defense was Tod Smith, Direct Attorney, and Brian Hester, Cross-Examiner. Defense witnesses were Stacie Williams as Moe Burnish, Becky Jenkins as Billy Outmon, and Olivia Smalley as Kelly Brown.

Serving as the team's bailiff and timekeeper was Ben Ogg.

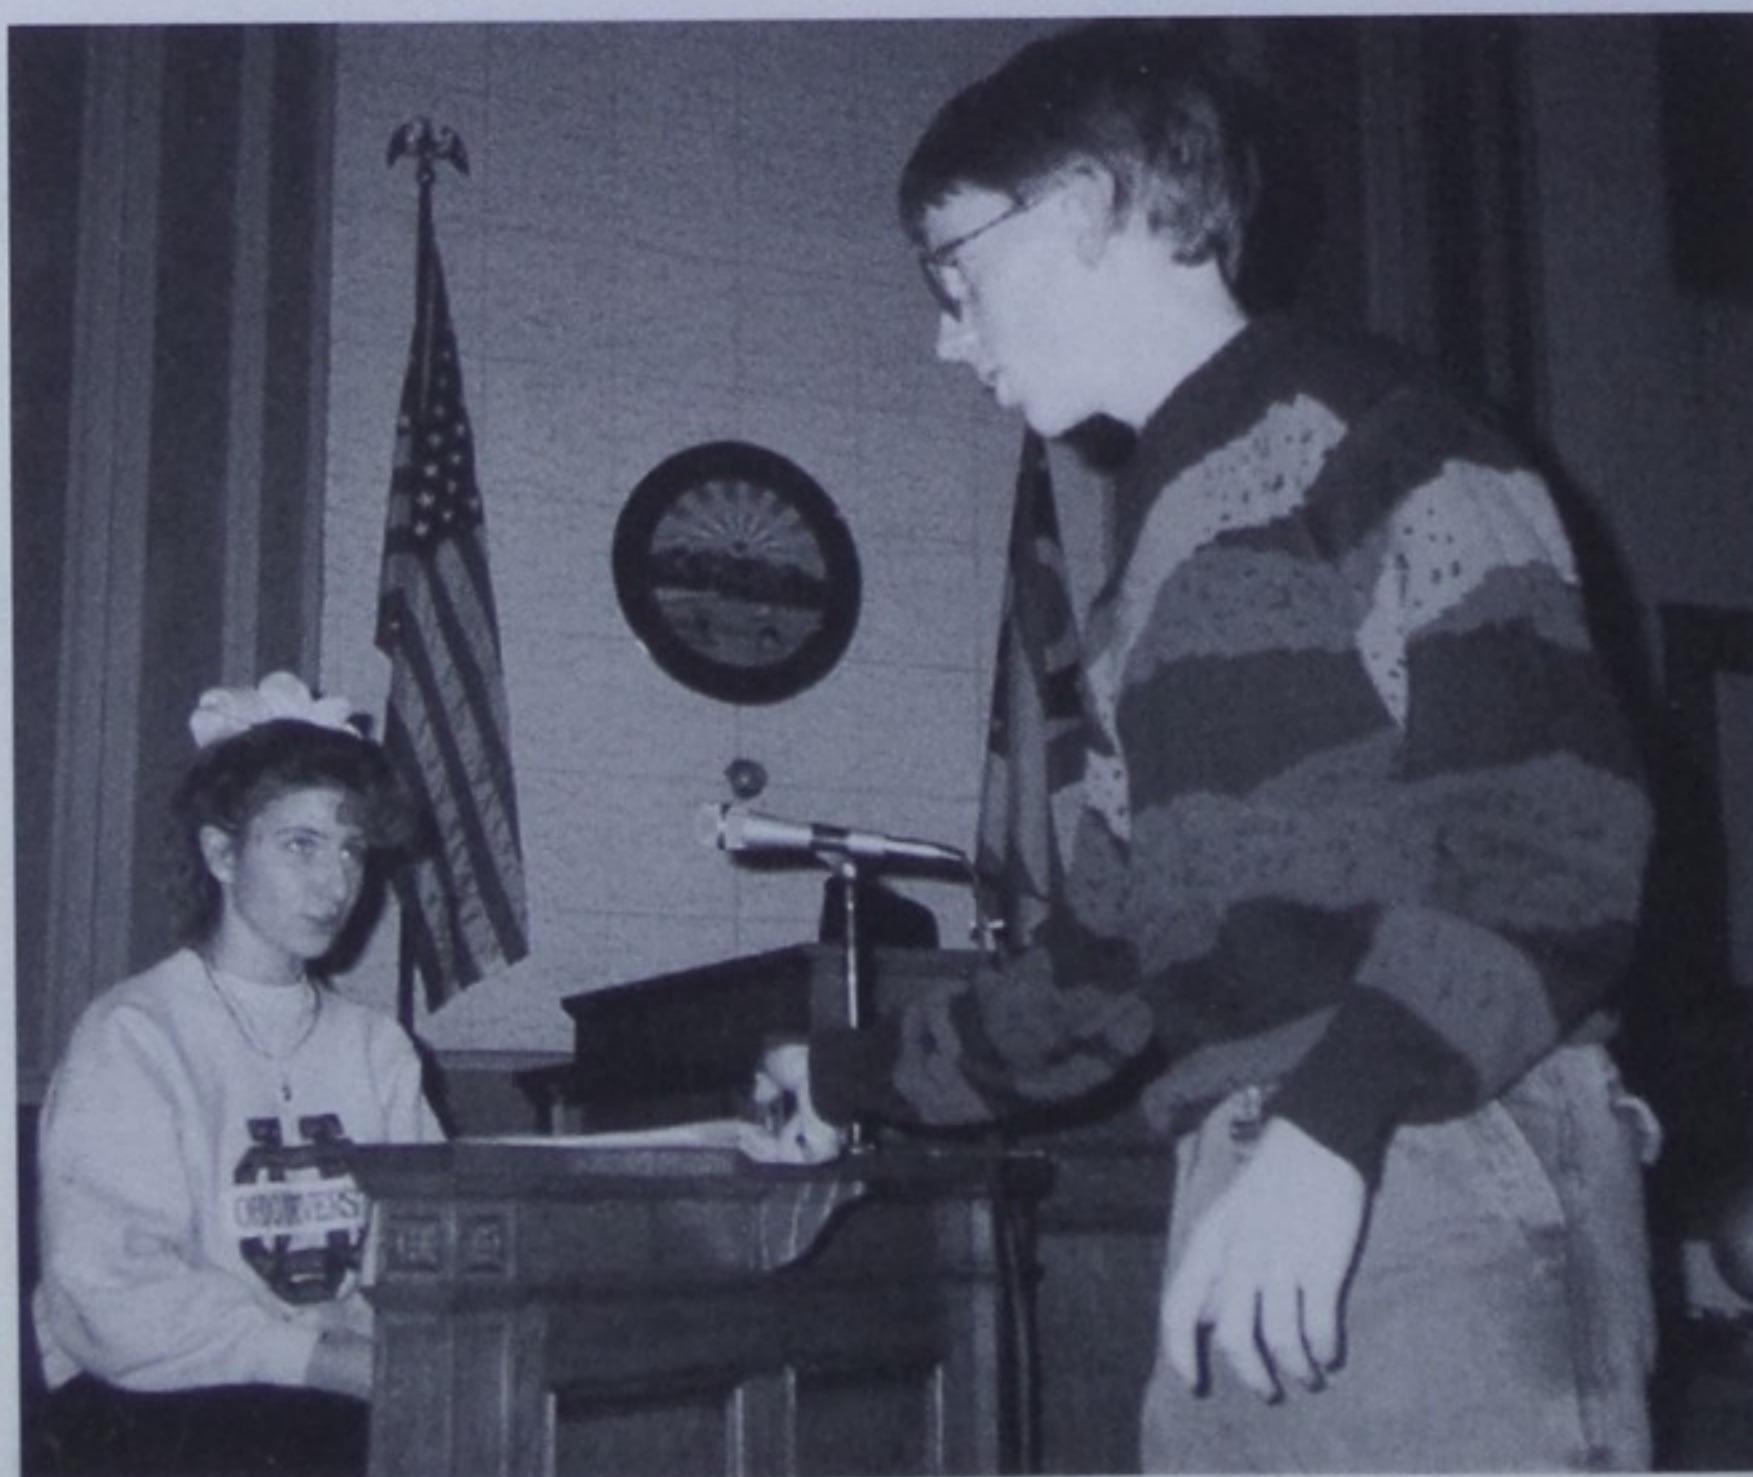

The Mock Trial team was victorious in the District competition held March 2, 1993, at the Scioto County Courthouse. This win, with an outstanding 18 out of 20 points, made the team eligible for state competition, a first in Valley history.

The Mock Trial team competed at the state level in Columbus on March 12th and 13th. Although the team was unable to proceed past the first round, three individual awards were won. Due to late competition on Friday, March 13, the team planned to return to Lucasville on Saturday, March 14. The Blizzard of '93, however, delayed the trip home until Sunday, March 15!

Brian Hester, cross-examiner for the defense, hands Danielle Arthur a map of the festival grounds. Danielle portrayed Officer Terry Copper in the trial.

Cathy Woodford tells her story about the incident while on the stand portraying Miss Sandy Beech.

Both old and new N.H.S. members participate in the lighting ceremony as part of the induction process.

Danielle Arthur and Darren Meddock walk side by side to the stage to join the new inductees.

Members of the audience look on as Sherry Woodford pins Rachelle Chestnut into the society.

The Valley High School Chorus sang "Dust In The Wind," during the 1992-93 induction ceremony of the Lucas Chapter of the National Honor Society.

National Honor Society member Jodi Stambaugh accompanies the chorus during their performance.

Stacey Smith, Stacey Burchett, and Leslie Riehl serve refreshments to Shane Parks following the ceremony.

What A Year!

As the season approached, the 1992 Valley High School football team was showing great improvement. The team was expected to be better than the previous two years, and they sure did live up to this expectation!!!

For the first time in school history, the Indians went 10-0. They were S.O.C. Division I Champions, and were rated number 19 in the state.

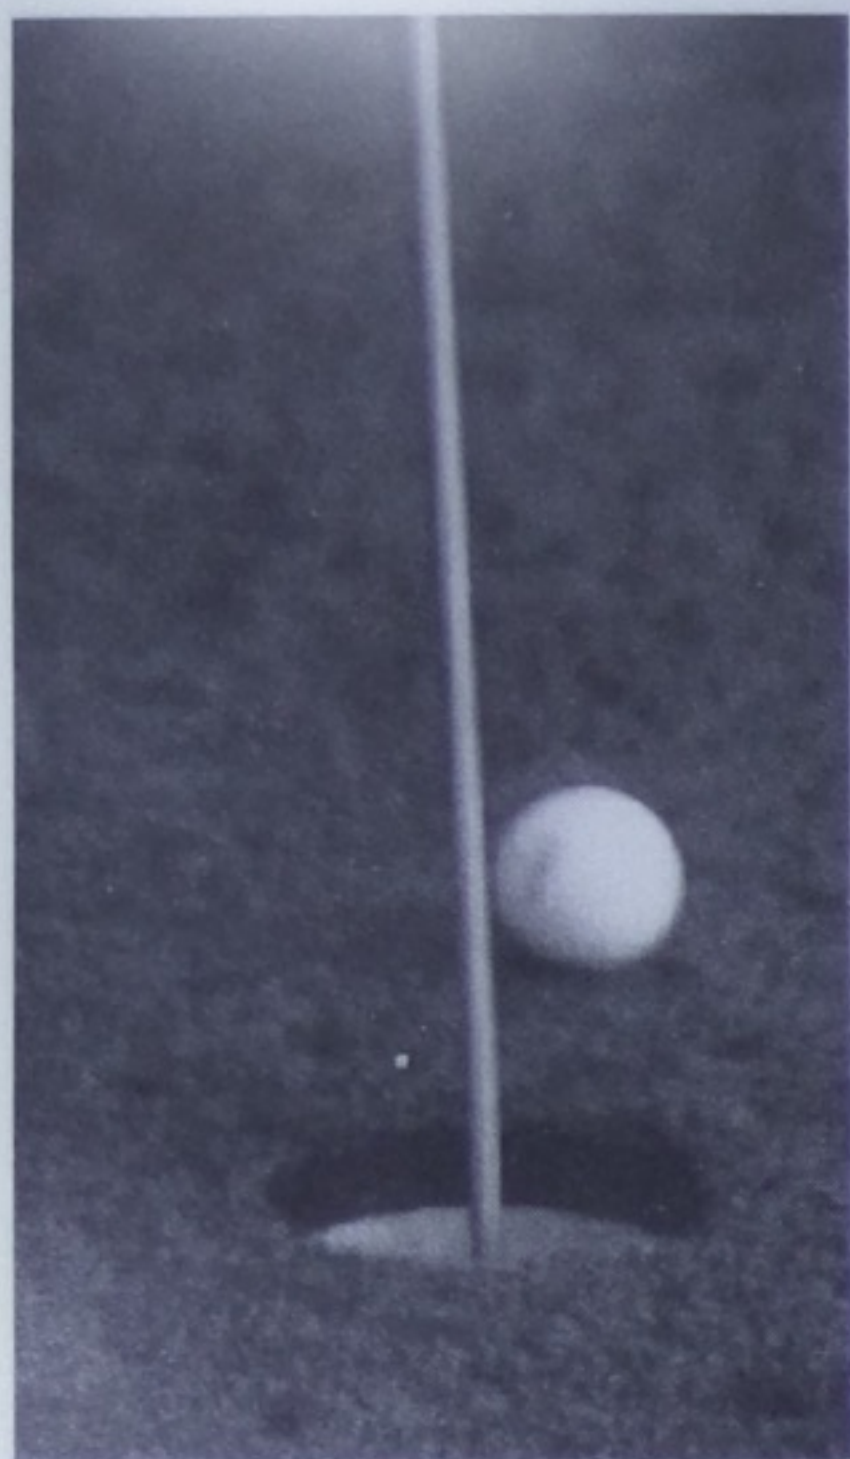

Many players received All-Conference and All-State awards, but the record of 10-0 reflects a total team effort. The hard work and dedication of the players in the weight room and to summer conditioning really paid off.

This group of young men went from 1-9 in 1990 and 2-8 in 1991, to 10-0 in 1992. This team deserves all the credit they have received and will continue to receive for many years. No matter what happens in the future, the 1992 Valley Indians football team will be remembered forever!

Congratulations to every team member, and especially those eleven seniors who helped make it all possible.

The Ending Of An Era

A special ceremony was held during the boys basketball game on February 12, 1993, to recognize the ending of a successful era of basketball in the Valley Local School District.

The February 12th game against Northwest was the last boys basketball game to be played in the old high school gym. The '94 season will mark the beginning of a new era in the recently completed high school.

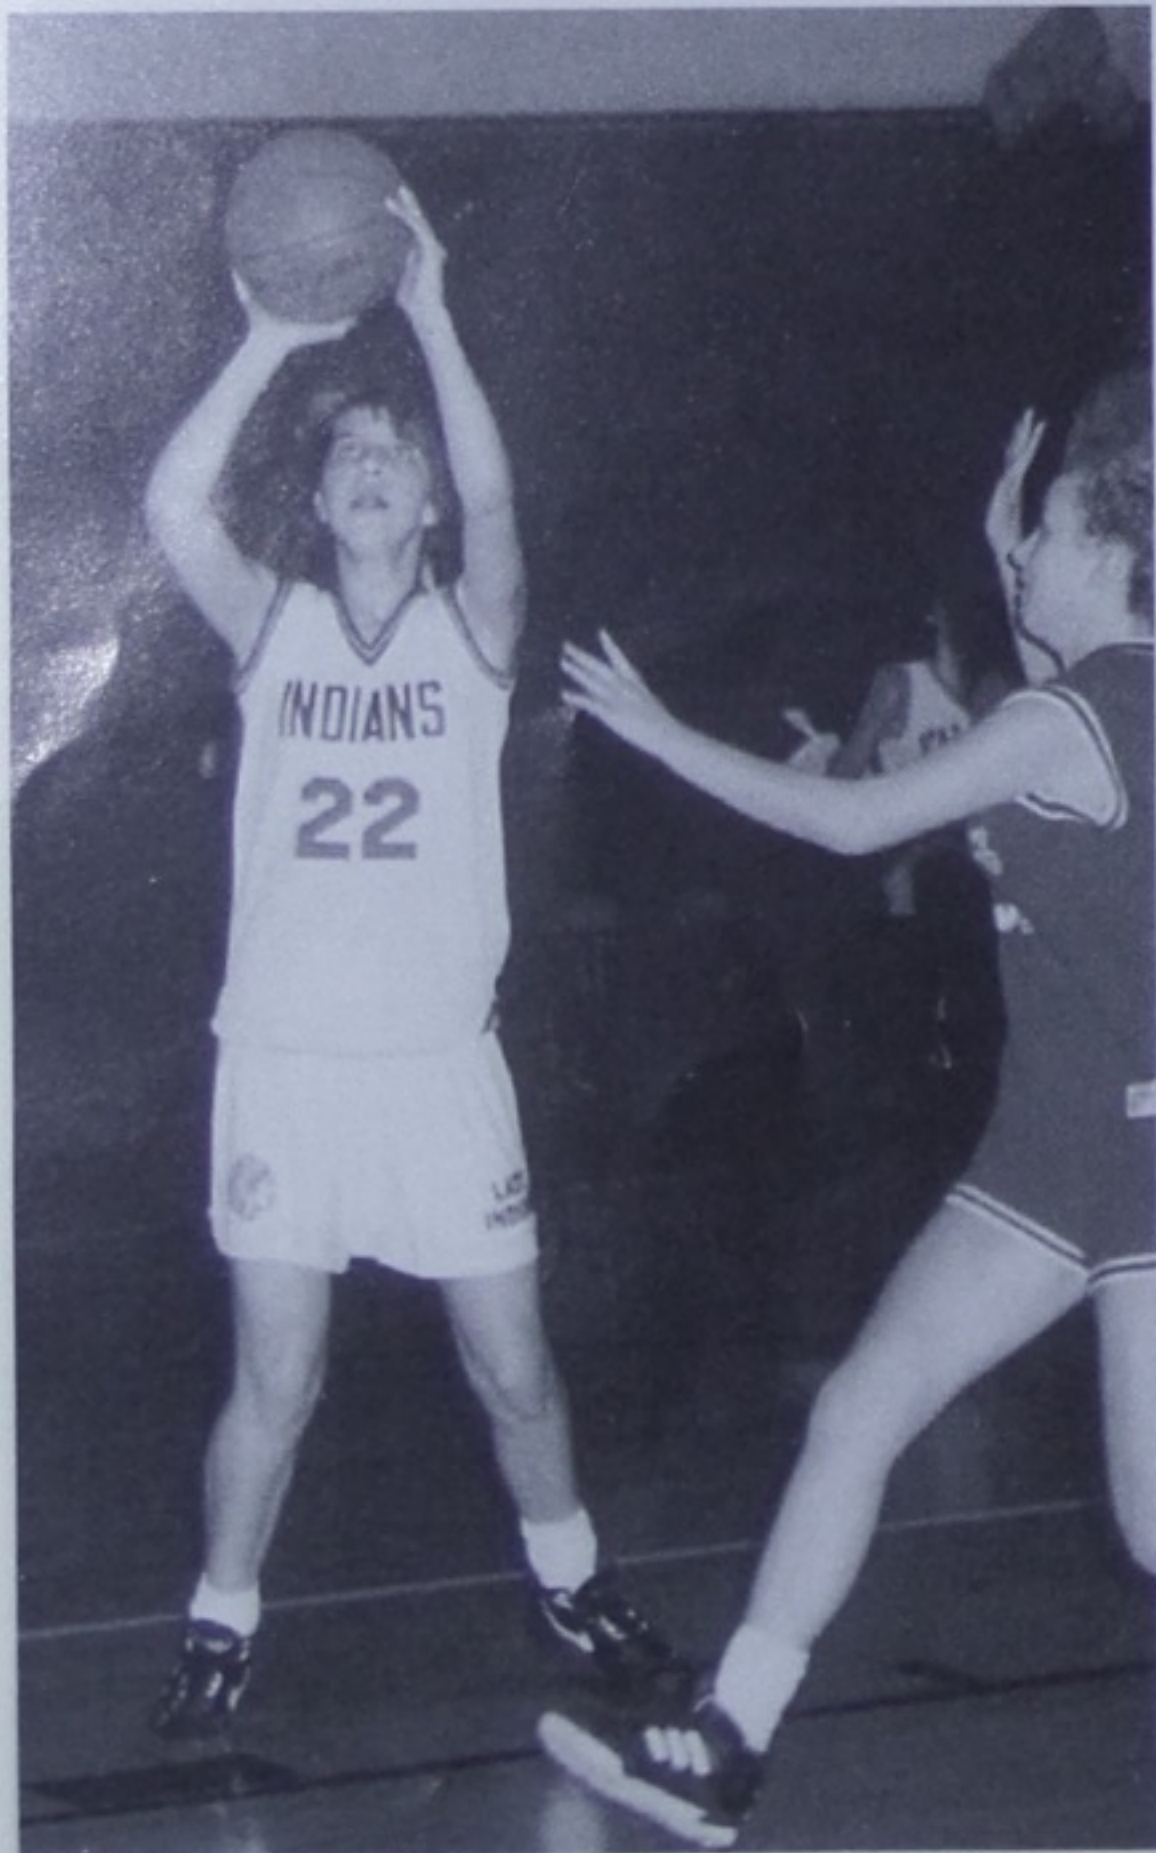

The first boys basketball team to play in the old high school was the team of 1958-59. Three members of that team were honored during the ceremony on Feb. 12th. They were Buford Bradley, Don Crabtree, and Dale Hatfield. Walt Barker was also honored for being an official at the first boys basketball game.

Left to right: Buford Bradley, Don Crabtree, Dale Hatfield, and Walt Barker.

Reserve Team. Front row: Tara DeAtley, Natalie Flinders, Courtney White, Samantha Johnson, Lisa James, Leslie Riehl. Back row: Coach Cable, Erin Bell, Kelly Seison, Kristie Franklin, Julie Miller, Amy Miller, Kelly Preston.

BEST WISHES!

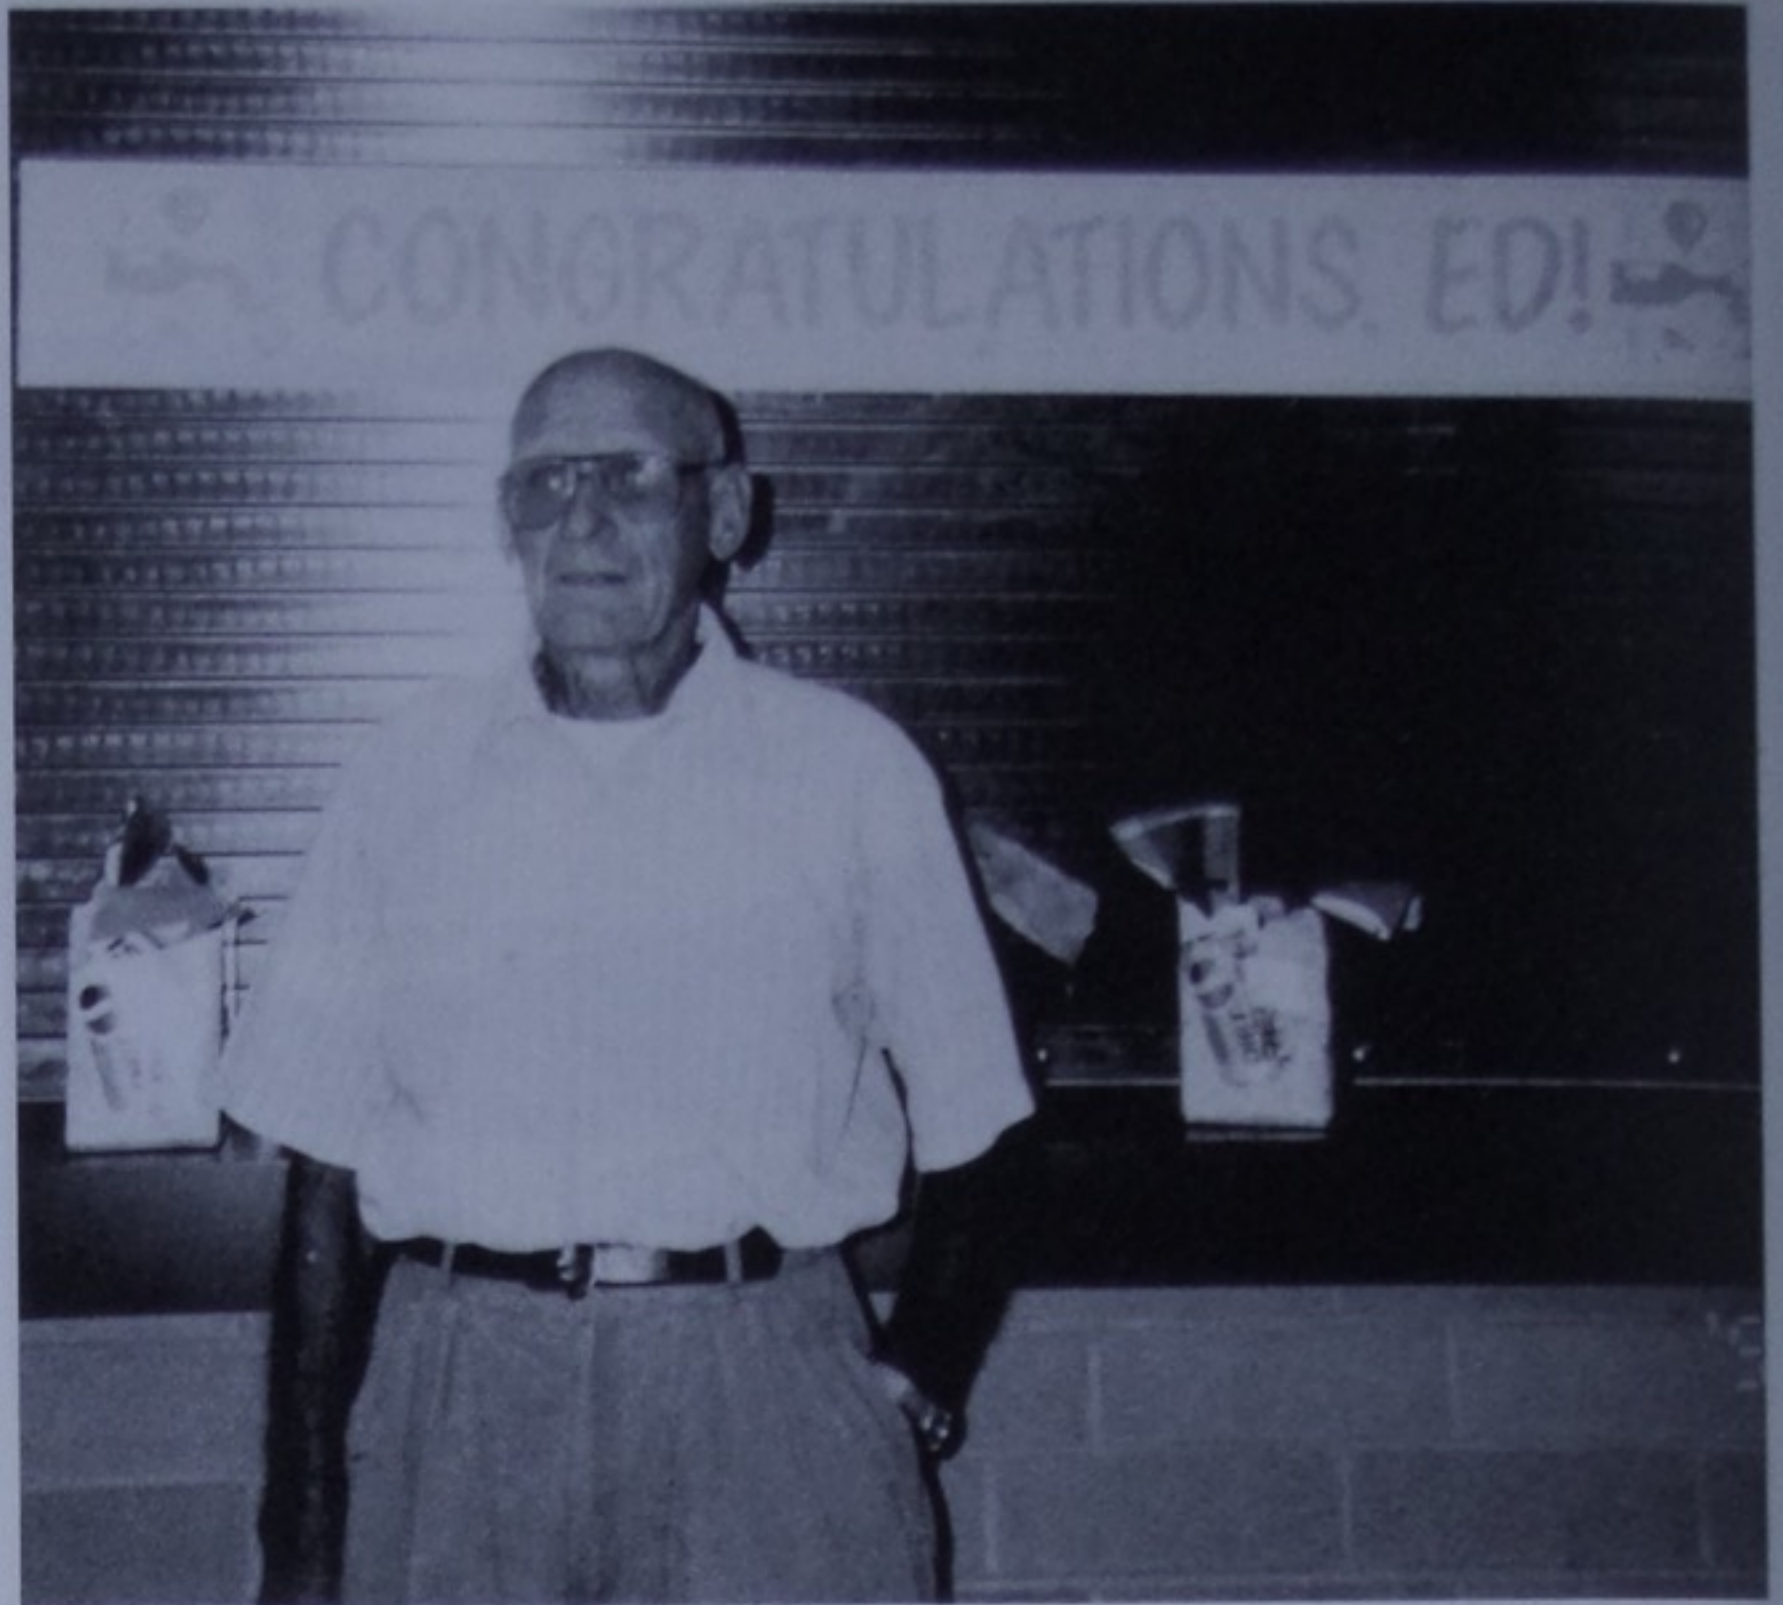

Mr. Ed Kelly retired as Maintenance Supervisor of the Valley Local School District on July 1, 1993.

A retirement party was held in his honor on Wednesday, June 30, 1993, at the high school with many co-workers, friends, and family members in attendance.

Mr. Kelly began working at Valley in 1983. Before this position, he worked over 37 years at the Portsmouth Daily Times, and has also been involved in construction work.

Mr. Kelly resides with his wife, Cora, at Cook Road, Lucasville. They have one daughter, Mary Margaret Kidd, and two grandchildren, J.B. and Molly Kidd.

Best wishes for the future, Ed!

Mr. Jeff Hamilton, Administrative Assistant/Project Manager of the recently completed schools, takes a well-deserved rest at the end of a work day.

We will let him guess as to who submitted this picture to be included in the yearbook!
