DO NOT CIRCULATE

Remember when you felt this way? It didn't take long to grow into those jerseys and sweaters, did it? Now you're almost through school, and you've probably read all the books on that shelf.

Let's follow our guides, Chris and Joey, through the year of 1962 to see what they find on their trip into the future.

ARTHUR PRESTON

Mr. McCowen said in a statement to us, "I believe that the public schools of America and this county will continue to lead the way for a better, stronger, and greater America. I believe that the American people are too strongly committed to education to ever let it down.

As educators, our main aim must be to continue the development of the emotional maturity, an understanding necessary for living together in a world made small by modern communications, transportation, and great imagination, in order that all individuals may find their place in this great democratic society.

The entire county school administration wishes your school the best of success and well-being in the years to come. We are proud of you."

What's so funny??

The G. A. A. began the season's activities by sponsoring an initiation picnic in Sept. At that time several girls were subjected to the wild antics of initiation.

The girls worked hard for points for the G. A. A. pin by participating in the various noontime activities. A pizza party completed the year's activities.

How Much Is \$165,000,000?

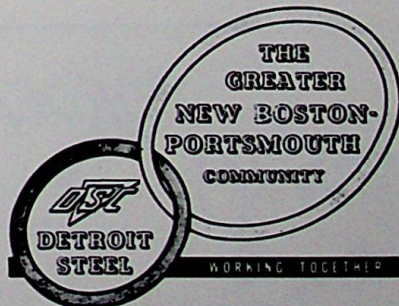

When the current expansion and modernization program is completed at its Portsmouth Division, Detroit Steel Corporation will have spent over \$165,000,000 in its determination to make this southern Ohio steel mill one of the finest, best equipped, most competitive such plants in the nation.

That's a lot of money.

For example, had a man who was living when Christ was born, continued to live until today, and had he spent \$225 every single day during all those long years, he would still not have spent that much money.

One hundred and sixty-five million dollars . . . the savings of thousands of ordinary people who, believing in the American Way, have become part owners in American Industry . . . plus the "plowed back" earnings of the company . . . all that money, within the next few years, will have been invested in the future of the Greater New Boston - Portsmouth Area to provide jobs and security for its citizens.

One minute car wash?

Where have all the flowers gone?

This is how it looks to a bird.

Warming up some new cooks.

A beaming bride-to-be.
