"It will be obvious to anyone who gives more than superficial thought to secondary education that its paramount problem today is that of a desired curriculum. Everything else is subordinate and should be contributory to it."

EDWARD R. McCOWEN

Superintendent McCowen received his B. S. degree, in education, from Ohio University, the Master's Degree from Northwestern University and has attended both Otterbein College and Harvard University. Through his leadership, numerous new courses have been added to the curriculum and a well planned development of all rural schools has taken place.

The Superintendent refreshes our minds that our slogan for many years has been, "Go Forward Scioto County Schools", and we are also reminded of his statement which has been quoted many times—"The best is none too good for our boys and girls."
