POLK'S PORTSMOUTH

Directory of Householders, Occupants of Office Buildings and
Other Business Places, Including a Complete
Street and Avenue Guide

1961

INCLUDING NEW BOSTON

Copyright, 1962, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants, but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

When the critic coughs, NEWSPAPER ADVERTISING is exposed to pneumonia

Newspaper advertising is purpose. Newspaper advertising is progress. Newspaper advertising is public. Newspaper advertising is always exposed. Nearly every cough of criticism about advertising spreads because the seed of infection is kept alive by the vitality of the public servant whose life it seeks to quell.

Why then, hasn't newspaper advertising died?

Because newspaper advertising is healthy. Newspaper advertising is strength. Newspaper advertising swells the biceps of our economy. It helps us maintain a standard of living second to no nation in the world.

Newspaper advertising is the pulse of the business cycle. Newspaper advertising tells you about new products and services and spurs your desire to enjoy them. It stimulates sales. New sales accelerate production. Greater production creates more jobs. Newspaper advertising encourages more people to enjoy more, so that more people may produce more . . . so that everyone may live better for less.

In momentary veins, advertising absorbs costs of newspapers, magazines, literature. It pays for the news you receive through sight.

Without the lifeblood of newspaper advertising, how could we raise funds necessary for charity, research, education?

Yet, because newspaper advertising is public, it is exposed to hypercritical sniping. A cough of criticism about it often spreads to epidemic proportion. Good thing newspaper advertising is healthy. Healthy enough not only to build its own immunity, but to fortify the economy with the nutrients of progress.

What a shame the critic hasn't done something for his cough. And with so many advertised remedies on the market.
