HOW MUCH IS \$165,000,000? . . .

When the current expansion and modernization program is completed at its Portsmouth Division, Detroit Steel Corporation will have spent over \$165,000,000 in its determination to make this southern Ohio steel mill one of the finest, best equipped, most competitive such plants in the nation.

That's a lot of money.

For example, had a man who was living when Christ was born, continued to live until today, and had he spent \$225 every single day during all those long years, he would still not have spent that much money.

One hundred and sixty-five million dollars. . . the savings of thousands of ordinary people who, believing in the American Way, have become part owners in American Industry . . . plus the "plowed back" earnings of the company. . . all that money, within the next few years, will have been invested in the future of the Greater New Boston-Portsmouth Area to provide jobs and security for its citizens.

*From the
"1961 Senatorian"
Staff*

We, the staff of the "1961 Senatorian," wish to thank each and every one of you for your co-operation in helping us to produce this book. We have had a great deal of difficulty in getting the pictures that were necessary for our annual. But, without these pictures there would be no book.

However, this is not all of our "1961 Senatorian." There are additional pages. These pages are called the "Supplement." It will include all of the spring activities such as baseball, prom, baccalaureate, and graduation.

You will receive this "Supplement" next fall when school begins. Seniors will have to make arrangements to pick up their copy at that time.
