Left: Approximately 1,300 delegates met at Bowling Green State University for an eight-day lesson in state government. Ron beat out his opponent to win the office of Treasurer for the city of Darlington. His responsibilities included creating budgets, paying salaries, and making major purchases for the city. An American flag recovered from the rubble at the Pentagon following the September 11 attacks was displayed at one of the assemblies and later was retired and disposed of with respectful and honor rights during a ceremony attended by the delegates.

Graduation is a time
For feeling very proud,
For thinking lots of lovely thoughts
And saying them out loud.

It's a time for feeling love
About to overflow,
And just before it leaps its banks,
To let our loved one know.

And so we're very proud of you
For being who you are,
For making something of yourself,
For making it this far.

2003

We're proud because we are a part
Of everything you do.
This time's the time to say how much
Love we have for you.

The day you were born, we had a special bond.
You are my pride & joy and always will be.
I look forward to the rest of your days.

Good-bye Friends, Teachers & Classmates

You have been a special part of my life, with lots of memories I'll hold dear to my heart. When the days and miles divide us, our friendship still lives on inside us. The dreams we've shared, the laughter too...

I love the friend I've found in you.

Live well, laugh often & Love

May God Bless You -- Green High Class of 2003

Kristalyn Harlock

So We're Graduating

With memories and distant dreams in our hearts, we remember all the little parts that top our charts. The times of joy and happiness that fill us with internal bliss of thoughts and times that will be missed.

Though tomorrow is surely coming and our lives are flowing out of the river into solemn streams of our own lives and dreams. We will always be the Green High School Class of 2003.

So out alone in the world, remember your friends, classmates, and all the times that have passed. For you are not alone because, we all have had some laughs.

So with this poem, I bid you all farewell. With thanks to you for the times I will carry with me, and the laughs and tears from all the years.

Nature in the Balance

COSI came to Green on March 26, 2003 bringing with it a host of fun experiments. After a morning assembly, students, in grades 5-8, were able to explore seven different stations. Experiments ranged from identifying birds to estimating the fish population of a lake. Special thanks to Dow Chemical for sponsoring the program.

On March 7, at the county level, Brittany won "Best in Show" and "Overall Champion". She swept the District Science Day Show on March 29 with a perfect score, winning 1st place in the health and medicine division. Brittany returned victorious from state with an excellent rating.

SCIENCE CLUB

Science Club Advisor: Mr. Bolland

It is open to all students attending the field trips.

Each year the science club takes the lessons learned in the classroom and uses this foundation to explore the real world applications. This year members had an opportunity to participate in two field trips. In the fall, students visited COSI in Columbus, Ohio. Fifteen physical science students enjoyed the space exhibits and the planetarium. On April 26, the members went from the heavens to the ocean depths as they visited the Newport Aquarium in Newport, Kentucky. The students enjoyed the IMAX film "Into the Deep" during this field trip. Whether studying the stars or diving into the depths, these Bobcats are preparing for a bright future.

Thanks to these students "Old Glory" flies proud day and night outside the high school. The project was chaired by Ashley Burton, Josh Evans, Johnna Holston, Katy Mollett, and Steven Skaggs. The CBI class also sponsored an essay contest with the theme "Why is it important to support our troops?"
