## **PREFACE.**

---

In presenting the third volume of the Portsmouth City Directory, the publishers are confident that, from the care that has been given to each department of the directory, a high degree of accuracy has been obtained.

In calculating the population from the names contained in the directory, the total may be considered as an over estimate, but when it is understood that the directory canvass is not confined to the city limits, this will account for any excess in the directory estimate over the federal census. There are contained in this volume of the directory 15,144 names. Using the multiple of  $2\frac{1}{2}$  to each name, a population of 37,860 is indicated, being a gain of 2,020 over previous issue of the directory.

Respectfully,

THE PUBLISHERS.
