The Chamber of Commerce

PORTSMOUTH, OHIO

Portsmouth is making itself one of the most outstanding points in this region through the activity of its Chamber of Commerce. This organization is composed of men who believe in their city and country. They look ahead when their city will be bigger, wealthier, more progressive, better equipped to solve the problems of a fast growing community.

As in the past, the Chamber of Commerce will continue to promote the general welfare of Portsmouth and Scioto County.

INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1941-42 edition of the Portsmouth City Directory, which also includes New Boston and North Moreland.

Confidence in the growth of Portsmouth's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Portsmouth to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Portsmouth Directory will fulfill its mission as a source of authentic information pertaining to the community.

Six Major Departments

The six major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 12 to 17, on white paper, presents lists of city, county, state and federal officials; post office Directory; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 363, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Portsmouth and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 365 to 463. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, begins opposite page 464.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 36, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Portsmouth and vicinity. The advertisements are indexed under headings descriptive of the

business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Portsmouth, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 501 to 556, on white paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Portsmouth and vicinity.

The Portsmouth Directory Library

Through the courtesy of the publishers of the Portsmouth City Directory, a Directory Library is maintained in the offices of the Portsmouth Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

History

Portsmouth's history goes back to within fifty years of the journey by French explorers down the Scioto River into the Ohio Valley, from the north, in 1749. It was at the site of this city that the French surrendered the Ohio Valley to the English in 1763. The early history of Scioto County is very closely associated with Indian activities, and at the junction of the Scioto and Ohio Rivers was located a Shawnee village. The site of the famous "Tremper Mound" is three miles from the city. A great collection of Indian relics have been taken from this mound. Many can be seen at the Portsmouth Public Library.

It was in 1799 that Major Belli laid out the town plat of Alexandria, which was directly across the Scioto River from the present site of Portsmouth. Portsmouth was founded in 1803 by Henry Massie, and all the citizens of Alexandria removed to the higher ground because of flood waters. The name Portsmouth originates, tradition says, from Portsmouth, New Hampshire.

The city flourished, and in 1820 the population was 500. In 1810 came the steamboat, and in 1812, the Ohio Canal, extending from Cleveland to Portsmouth, was completed. Early growth centered around river and canal transportation.

Portsmouth always has been a manufacturing center. Natural resources, such as iron ore, coal, limestone, clay and shale, predestined Portsmouth and its environs to take a lead in the manufacture of iron and steel and many kinds of clay products.

Railroads came to Portsmouth in 1853, and the population had then grown to more than 4,000. The shoe industry started in Portsmouth in 1869, and has thrived until today it forms one of the city's major industries.

Products manufactured in Portsmouth are: Steel, steel products, shoes, shoe laces, paper boxes, wood lasts, wood heels, stoves, castings, fire brick, silica brick and work clothing.

Industry

Because of its geographical location, its topography and its transportation facilities, Portsmouth is an ideal center for industry,

There are many diversified manufacturing plants in the city, among which are:

The Wheeling Steel Corp., employing 4,000 men, manufacturing wire, rods, tie-plates, nails, drums, range boilers and tanks.

The Harbison-Walker Refractories Co. and the General Refractories Co., producing millions of high-grade bricks annually.

The Williams Mfg. Co. and the Selby Shoe Co.

The Vulcan Corp., plant and main office here. This concern is a leading manufacturer of shoe lasts and wood heels.

The T. M. Patterson Paper Box Co., manufacturing paper boxes, mainly for the shoe industry.

Three railroads: The Baltimore & Ohio, the Norfolk & Western and the Chesapeake & Ohio, employing 2,200.

Mitchellace, Inc., one of the largest high-grade shoe lace manufacturers in the country.

The Ohio Stove Co., producing 30,000 gas and coal stoves per annum.

The Blue Jay Corp., manufacturing overalls, mattress covers, mosquito bar-netting, trousers and denim suits.

Shawnee State Forest and Roosevelt Game Preserve ("Ohio's Little Smokies")

Within a few miles of Portsmouth are located Ohio's greatest State-owned forests, the Shawnee State Forest and the Roosevelt Game Preserve. This area comprises about 45,000 acres of picturesque hill land. This region once the hunting grounds of the Shawnee Indians, is unlike any other portion of Ohio. Here is mile after mile of forest, broken only by an occasional patch or strip of cultivated soil in the narrow valleys.

This great forest area was purchased primarily for the purpose of producing and conserving timber, protecting the watershed and the conservation of wild life. The traveler will notice that the Forest is comprised of a mixture of oak, hickory, yellow poplar, and short-leaf and pitch pine.

An extensive system of roads has opened the entire Forest area for recreational use, and it is now possible to drive over 100 miles of good gravel roads to the deep recesses of the Forest and enjoy beauty not hitherto known.

Public use of the Forest is increasing constantly and the recreational facilities are being continually improved. Picnic areas and camp sites are being developed. Picnic Point, one of the most popular spots, gives the visitor a view south-eastward across the broad valley of the Ohio River toward Portsmouth. Several reservoirs have been constructed, the most used of which is Lake Roosevelt, located on Route 125. Several years ago the Department of Conservation released many deer, and they have become well established. Hikers and automobile travelers often enjoy the rare sight of deer grazing in the valleys. The Portsmouth Chamber of Commerce invites you to avail yourself of the privilege of a hike or drive through the forests. All that is asked in return is to be careful with fire ... "KEEP THE FOREST GREEN."

POLK'S PORTSMOUTH

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1941-42

INCLUDING NEW BOSTON AND
NORTH MORELAND

Copyright, 1942, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

THE CITY DIRECTORY

represents the City and its
institutions in every cor-
ner of these United States

**Are You Properly
Represented In It?**

**The Classified portion
catalogues the professions
and goods handled here**

ARE YOU LISTED UNDER YOUR PROPER HEADING
SO THE PROSPECTIVE BUYER CAN FIND YOU?

“Think It Over”

ONE OF 350 POLK DIRECTORY LIBRARIES

This Little Library Can Answer 945,000,000 Questions

MANY TRIPS AT YOUR FINGER-TIPS —
SAVE MANY MILES, MINUTES and DOLLARS

There are over 500 of these directory libraries in the United States. They are installed and maintained by the Association of North American Directory Publishers as part of the service given to directory advertisers.

Think what this means to you in effort, time and money saved. You want to know the relationship of the signer of a letter to the firm he represents—the directory library has the answer; someone you vitally need to get in touch with in a distant city has moved; business addresses or firm names have changed—the directory library has the answer. Public officials have been replaced by new elections; location of real estate is desired—again the directory library holds the answer.

Of course you could write or phone for the data you desire—but maybe you don't know just who to approach—the directory library has the answer.

This service is free, for single reference, to the public.

When you want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.**

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organization and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
