When present plans are completed in the fall of 1957, Washington School District will, for the first time in many years, have enough classrooms to meet the state standard for good teaching. In the last four years, approximately \$500,000 of federal and state funds, in addition to local funds, have been invested in school facilities.

It is this continual progress and expansion that allows Washington School District to be a proud, and many times, a successful contender in various phases of school life and competition.

The citizens of this school district have given their finest support and co-operation to this growth and development of schools. To them we say "Thank you" by offering the children excellent opportunities for education in all fields.

## A MESSAGE TO THIS YEAR'S GRADUATES

Detroit Steel Corporation heartily congratulates you. You have moved another step forward on your way to becoming useful citizens in the community.

Many rewarding opportunities await you after graduation in this nation of ours whose progress is rooted in its freedoms. American industry is an outgrowth of these freedoms.

A good example is the Steel industry. During the past one-hundred years Steel has played a major part in lifting the standard of living in our country. The industry has expanded continuously. It is now on the threshold of further expansion on a gigantic scale.

This means new jobs . . . more and better jobs with a future. America and Steel are growing together. Have you considered Steel as a career?

We urge you to pursue all opportunities for continued study and self-improvement. Only by increasing the breadth of your knowledge can you hope to keep abreast of our ever expanding technology in a technical world. More than ever it can be said for the future that "knowledge is power."
