POLK'S PORTSMOUTH

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1959

Including New Boston

Copyright, 1959, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass, are shown opposite names.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with the
latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CITY DIRECTORY USAGE SOARS TO NEW HIGH!

Post-war relocation of millions in their permanent homes; readjustment of business to normal conditions; the great new developments in civilian life just over the horizon of the future — these and other things make City Directory listing a “must” for all business people. Remember the huge upswing in City Directory usage.

MR. CITIZEN!

CORRECT INFORMATION IS VALUABLE TO YOU!

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. Your name, listed correctly in the City Directory, is a great asset. This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

DIRECTORY PUBLISHERS FOR 750 CITIES

Polk City Directories have been the accepted basis for population listings in hundreds of American cities. These directories, compiled regularly, provide detailed information concerning the name, address, occupation and other important information about all adult residents of a city. In addition to local circulation, Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the U.S. and Canada. *The priceless ingredient of a City Directory is the accuracy with which it is made; accuracy is the product of experience; Polk has been compiling City Directories since 1870.*

DIRECT MAIL ADVERTISING FOR LEADING INDUSTRIES

Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's largest industries are Polk's long-time clients. Polk's direct mail advertising is complete . . . consultation, research, testing, creating, printing, producing, and distributing to selected prospects. Polk's production plants are geared to handle more than two million mailings daily. Included in its production facilities is the world's largest battery of imprinting presses and the world's largest installation of automatic typewriters. *Polk's direct mail advertising services are dedicated to helping business men produce increased sales volume.*

NATIONAL MAILING LISTS AND MAILING SERVICES

The people of America are in Polk's list files . . . all businesses, trades, professions, and vocations . . . obtained through personal canvass. Polk also lists all automobile and commercial vehicle owners—by make of car or truck, by model, by year, by state, county and city. Mailing lists of one kind or another, totaling more than 60,000,000 names a year, are compiled for Polk clients. Facilities for multigraphing, typing, letter-press or offset printing, questionnaires or letters, and complete addressing, imprinting and mailing services are available. *Polk can reach the right prospects DIRECT, with the right kind of message.*

AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

Since 1922 Polk has been statistician for the automotive industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model, is the only annual inventory of the country's automotive equipment. Polk's new car passenger and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory . . . The first business census of the U.S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town. *Using Polk statistical services American business is able to plan intelligently its production, distribution and sales.*
